child abuse history clearance: *Here's the Plan*. Allyson Downey, 2016-04-05 For many women in their 20's and 30's, the greatest professional hurdle they'll need to overcome has little to do with their work life. The most focused, confident, and ambitious women can find themselves derailed by a tiny little thing: a new baby. While more workplaces are espousing family-friendly cultures, women are still subject to a parenting penalty and high-profile conflicts between parenting and the workplace are all over the news: from the controversy over companies covering the costs of egg-freezing to the debate over parental leave and childcare inspired by Marissa Mayer's policies at Yahoo. *Here's the Plan* offers an inventive and inspiring roadmap for working mothers steering their careers through the parenting years. Author Allyson Downey, founder of weeSpring, the 'Yelp for baby products,' and mother of two young children advises readers on all practical aspects of ladder-climbing while parenting, such as negotiating leave, flex time, and promotions. In the style of #GIRLBOSS or *Nice Girls Don't Get the Corner Office*, *Here's the Plan* is the definitive guide for ambitious mothers, written by one working mother to another.

child abuse history clearance: Children, Dogs and Education Mary Renck Jalongo, 2018-05-08 This book brings together authoritative information about the child/dog bond as it is manifested with family dogs, visiting therapy dogs, and service dogs trained to assist children with disabilities. Despite the widely accepted view that participating in a dog's care and interacting with dogs in behaviorally healthy ways is a route to becoming responsible and compassionate, research on this complex dynamic is difficult to design, time-consuming to collect, and challenging to analyze. This volume synthesizes theory, research, and practice, bringing all to bear upon child/dog interactions in homes, schools, libraries, and the community at large. *Children, Dogs and Education* serves as a handbook for a diverse group of adults who seek to build positive relationships between children and dogs—parents/families, professional dog trainers, teachers, librarians, mental health professionals, health care professionals, and university faculty. The study of interactions between human and nonhuman animals has captured the imagination of an international community of researchers from many different fields and professions. Even though dogs are ubiquitous in the lives of most children, studies of children's interactions with dogs in families and communities are lacking. Most of the previous research on the human-canine bond has focused on adolescents and adults or, even when younger children are the focus, it has tended to rely on parents to speak for children. There are three features of this book that make it unique. First, it goes beyond exploring the child/dog bond to examine additional important issues, including: children's concepts of responsible care, their ability to interpret dogs' behavioral cues, and their ideas about canine behavioral issues/training. Second, unlike most other work to date, it represents children's voices through cases, interviews, and drawings. Finally, the contributors to this edited work use their collective wisdom to draw educational implications and suggest direction in preparing the next generation of dog guardians.

child abuse history clearance: Keeping Schools Safe Joaquin Jay Gonzalez III, Roger L. Kemp, 2023-03-07 Since 2009, at least 177 of America's schools experienced a shooting. A parent should not have to worry when their children are at a public school in their city--whether it be an elementary school, a middle school, a high school, or a college campus. School safety and security are strengthened by prevention, mitigation, and response. The sections in this book educate school boards, school administrators, policymakers, academics, and parents on the importance of staying informed and accurately responding to school security and safety. The book highlights the school shootings in Columbine, Newton, Parkland, and many others that remind us of the responsibilities as citizens and communities to make schools a safe space for children. It is time to think about school shootings not merely as a problem of security but as a problem of security and education.

child abuse history clearance: *Travel 101* Andrew M. Yaracs, 2014-02-17 Have you ever thought to yourself I wish I knew then what I know now or hindsight is 20/20? When I think back to the day that I began planning my first band trip those sentiments are true. I wrote this book as a resource to help band directors who are interested in planning student travel opportunities. While the main focus is on travel and performance with a marching band the information can be adapted and applied to almost any group whether you're an orchestra or choir director, classroom teacher or club advisor. The content is a compilation of the things I learned through personal experience, networking with other band directors and dealing with several different travel companies over a fifteen year period from 1997 to 2012 as the director of the Butler High School Golden Tornado Marching Band in Butler, Pennsylvania. Travel 101 is a comprehensive guide that will provide a step by step blueprint for planning and executing a safe and successful experience for your students. The book covers a wide spectrum of travel related topics and is a valuable resource for either the novice or experienced group planner. Why travel? What are the benefits of a travel program? You'll get the answers to these and other questions as well as advice and guidance on: Getting Started, Applying for major events i.e. Pasadena Tournament of Roses Parade and Macys Thanksgiving Day Parade, Choosing a Travel Company, Creating a Budget, Planning Your Itinerary, Making Transportation Choices i.e. Bus, Commercial or Charter Air, Fundraising, Managing Student Accounts, Safety and Security, Travel Dos and Don'ts, Liability Issues, Chaperones, Medical Concerns, Student Supervision, Dealing with Uniforms and Equipment, Public Relations, Meetings and Methods of Communication, Rooming Assignments, Packing Guidelines, Preparing for Your Performance, and Managing the Trip to name just a few. In addition I have included a resource section in the back of the book with links to various travel and event websites, a major events list, information on several travel associations and several sample forms and letters you can adapt for your own use.

child abuse history clearance: Rachel in the World Jane Bernstein, 2010-10-01 What happens when love is no longer enough? Jane Bernstein thought that learning to accept her daughter's disabilities meant her struggles were over. But as Rachel grew up and needed more than a parent's devotion, both mother and daughter were confronted with formidable obstacles. *Rachel in the World*, which begins in Rachel's fifth year and ends when she turns twenty-two, tells of their barriers and successes with the same honesty and humor that made *Loving Rachel*, Bernstein's first memoir, a classic in its field. The linked accounts in part 1 center on family issues, social services, experiences with caregivers, and Rachel herself--difficult, charming, hard to fathom, eager for her own independence. The second part of the book chronicles Bernstein's attempt to find Rachel housing at a time when over 200,000 Americans with mental retardation were on waiting lists for residential services. As Rachel prepares to leave her mother's constant protection, Bernstein invites the reader to share the frustrations and unexpected pleasures of finding a place for her daughter, first in her family, and then in the world.

child abuse history clearance: Teaching Compassion: Humane Education in Early Childhood Mary Renck Jalongo, 2013-07-23 In response to highly publicized incidents of school violence, educators across the United States and in many other nations are seeking effective ways to prevent and modify aggressive and anti-social behaviors in students. One of the major recommendations of the research is that efforts to prevent cruelty need to begin early, during the early childhood years of birth through age eight. The focus of Teaching Compassion: Humane Education in Early Childhood is guiding young children to accept responsibility for and to be kind in their interactions with fellow human beings, animals and the environment. Although humane education is a relatively new concept in the field of early childhood education, professionals in the field are very familiar with many of the related concepts, including: promoting positive interpersonal interactions, teaching children the skills of self-regulation, giving children experience in caring for living things and protecting the environment. This edited volume is an interdisciplinary compendium of professional wisdom gathered from experts in the fields of education, child development, science, psychology, sociology and humane organizations. As the book amply documents, the concept of humane education is powerful, integrative, timely and appropriate in work with young children. Teaching Compassion: Humane Education in Early Childhood shows how it is possible for adults dedicated to the care and education of young children to balance attention to the cognitive and affective realms and, in so doing, to elevate the overall quality of early childhood programs for children, families and communities.

child abuse history clearance: Disasters and Mass Casualty Incidents Mauricio Lynn, Howard Lieberman, Lior Lynn, Gerd Daniel Pust, Kenneth Stahl, Daniel Dante Yeh, Tanya Zakrison, 2018-11-10 Mass Casualty events may occur as a result of natural or human-caused disasters or after an act of terrorism. The planning and response to disasters and catastrophes needs to take into consideration the distinction between progressive and sudden events. Insidious or slowly progressive disasters produce a large number of victims but over a prolonged time period, with different peaks in the severity of patients presenting to the hospital. For example, radiation events will produce a large number of victims who will present days, weeks, months, or years after exposure, depending on the dose of radiation received. The spread of a biological agent or a pandemic will produce an extremely high number of victims who will present to hospitals during days to weeks after the initial event, depending on the agent and progression of symptoms. On the other hand, in a sudden disaster, there is an abrupt surge of victims resulting from an event such as an explosion or a chemical release. After the sarin gas attack in a Tokyo subway in 1995, a total of 5500 victims were injured and required medical attention at local hospitals immediately after the attack. The car bomb that exploded near the American Embassy in Nairobi, Kenya, killed 213 people and simultaneously produced 4044 injured patients, many requiring medical care at local hospitals. The Madrid train bombing in March 2004 produced more than 2000 injured victims in minutes,

overwhelming the city's healthcare facilities. More than 500 injured patients were treated at local hospital after the mass shooting in Las Vegas. Finally, earthquakes may produce a large number of victims in areas in which the medical facilities are partially or completely destroyed. Sudden events bring an immediate operational challenge to community healthcare systems, many of which are already operating at or above capacity. The pre-hospital as well as hospital planning and response to sudden mass casualty incidents (SMCI's) is extremely challenging and requires a standard and protocol driven approach. Many textbooks have been published on Disaster Medicine; although they may serve as an excellent reference, they do not provide a rapid, practical approach for management of SMCI's. The first edition of "Mass Casualty Incidents: The Nuts and Bolts of Preparedness and Response for Acute Disasters" dealt exclusively with sudden mass casualty incidents. The second edition will expand its focus and include planning and response for insidious and protracted disasters as well. This new book is designed to provide a practical and operational approach to planning, response and medical management of sudden as well as slow progressive events. The target audience of the second edition will be health care professionals and institutions, as well as allied organizations, which respond to disasters and mass casualty incidents. Parts I and II are essentially the first edition of the book and consist of planning of personnel, logistic support, transport of patients and equipment and response algorithms. These 2 parts will be revised and updated and include lessons learned from major mass shootings that occurred recently in the United States and other parts of the world Part III will describe the planning process for progressive disasters and include response algorithms and checklists. Part IV will handle humanitarian and mental health problems commonly encountered in disaster areas. Part V will deal with team work and communication both critical topics when handling catastrophes and mass casualty incidents. This new book will be a comprehensive tool for healthcare professionals and managers and should perform demonstrably better in sales and downloads. It will be of value at the pre-hospital as well as the hospital level, to plan and respond to the majority of catastrophes and mass casualty incidents.

child abuse history clearance: It Takes a Village Hillary Rodham Clinton, 2012-12-11 Ten years ago one of America's most important public figures, First Lady Hillary Rodham Clinton, chronicled her quest both deeply personal and, in the truest sense, public to help make our society into the kind of village that enables children to become able, caring resilient adults. IT TAKES A VILLAGE is a textbook for caring, filled with truths that are worth a read, and a reread. In her substantial new introduction, Senator Clinton reflects on how our village has changed over the last decade, from the internet to education, and on how her own understanding of children has deepened as she has watched Chelsea grow up and take on challenges new to her generation, from a first job to living through a terrorist attack. She discusses how the work she is doing in the Senate is helping children and looks at where America has been successful, improvements in the foster care system and support for adoption, and where there is still work to be done, providing pre-school programmes and universal health care to all our children. This new edition elucidates how the choices we make about how we raise our children, and how we support families, will determine how all nations will face the challenges of this century.

It considers the unique perspective of children and invests accordingly. It's a home-cooked meal compared to fast food. It sends a message to parents that a church values children enough to identify and meet their specific needs in their community at a particular moment in time. Well-designed VBS programs speak to children with respect, love, and patience, offering opportunity for authentic spiritual growth, not to mention an intentional theology that is reflective of the church. Finally,

custom-designed VBS programs are a way to fully include children in the mission and ministry of the church rather than confine their unique gifts. This book provides Christian educators with the tools they need to assess the needs and resources in their congregation, and to craft a creative program in response to that assessment. The Best VBS Workbook Ever offers direction and suggestions on theme, structure, logistics, program, activities, staffing and promotion.
