city of virginia beach real estate assessment: *Jurist Prudent -- the Judicial Opinions of Lawrence L. Koontz, Jr. , Volume 4* Lawrence L. Koontz, Jr., John S. Koehler (Editor), Harry L. Carrico (Foreword), 2011-07-10 Upon his retirement from active service as a Justice of the Supreme Court of Virginia in 2011, Justice Koontz had completed more than four decades of service to citizens of the Commonwealth of Virginia. In order to recognize that service and help preserve Justice Koontz legacy as one of the outstanding jurists in Virginia and the United States, the Salem/Roanoke County Bar Association instituted this project to collect all of Justice Koontz's published opinions, both from his tenure as a Justice of the Supreme Court and as an inaugural member of the Court of Appeals of Virginia. The fourth volume to be produced by the Opinions Project includes opinions, concurrences and dissents authored by Justice Koontz during his first years of his service as a Justice of the Supreme Court of Virginia. Also included in the volume is the published text of The Fifth Annual Austin Owen Lecture delivered by Justice Koontz at his alma mater, The T.C. Williams School of Law of the University of Richmond.

city of virginia beach real estate assessment: Labor and Material Requirements for Civil Works Construction by the Corps of Engineers Roland Vinton Murray, 1964 New construction is a major component of the Nation's output of goods and services and an important source of employment. It creates jobs not only at the project sites, but also in the many manufacturing, trade, and transportation industries which furnish materials and equipment required in the construction processes. The Bureau of Labor Statistics has undertaken a series of studies to measure these labor requirements for various types of construction. The program of civil works construction under the Corps of Engineers--the construction of facilities such as dams, levees, dikes, and channels to control and develop the Nation's water resources--was chosen for early study because of the size of the program, because it is representative of an important part of heavy construction, and because it is the type of program frequently envisioned when public works construction is under consideration as a means of counteracting cyclical unemployment.
