**cole sprouse call her daddy interview:** *Disney High* Ashley Spencer, 2024-09-24 The first unauthorized look at the inner workings—and ultimate breakdown—of the Disney Channel machine For many kids growing up in the 2000s, there was no cultural touchstone more powerful than Disney Channel, the most-watched cable channel in primetime at its peak. Today, it might best be known for introducing the world to talents like Hilary Duff, Raven-Symoné, Zac Efron, Miley Cyrus, Selena Gomez, the Jonas Brothers, Demi Lovato, and Zendaya. It wasn't always destined for greatness: when The Disney Channel launched in 1983, it was a forgotten stepchild within the Walt Disney Company, forever in the shadow of Disney's more profitable movies and theme parks. But after letting the stars of their Mickey Mouse Club revival—among them Britney Spears, Justin Timberlake, Christina Aguilera, and Ryan Gosling—slip through their fingers, Disney Channel reinvented itself as a powerhouse tween network. In the new millennium, it churned out billions of dollars in original content and triple-threat stars whose careers were almost entirely controlled by the corporation. Suddenly, everyone wanted a piece of the pie—and there were constant clashes between the studio, network, labels, and creatives as Disney Channel became a pressure cooker of perfection for its stars. From private feuds and on-set disasters, to fanfare that swept the nation and the realities of child stardom, culture journalist Ashley Spencer offers the inside story of the heyday of TV's House of Mouse, featuring hundreds of exclusive new interviews with former Disney executives, creatives, and celebrities to explore the highs, lows, and everything in between.

**cole sprouse call her daddy interview:** *The Forgotten First* Keyshawn Johnson, Bob Glauber, 2021-09-21 The unknown story of the Black pioneers who collectively changed the face of the NFL in 1946. THE FORGOTTEN FIRST chronicles the lives of four incredible men, the racism they experienced as Black players entering a segregated sport, the burden of expectation they carried, and their many achievements, which would go on to affect football for generations to come. More than a year before Jackie Robinson broke the color barrier in Major League Baseball, there was another seismic moment in pro sports history. On March 21, 1946, former UCLA star running back Kenny Washington—a teammate of Robinson's in college—signed a contract with the Los Angeles Rams. This ended one of the most shameful periods in NFL history, when African-American players were banned from league play. Washington would not be alone in serving as a pioneer for NFL integration. Just months after he joined the Rams, thanks to a concerted effort by influential Los Angeles political and civic leaders, the team signed Woody Strode, who played with both Washington and Robinson at UCLA in one of the most celebrated backfields in college sports history. And that same year, a little-known coach named Paul Brown of the fledgling Cleveland Browns signed running back Marion Motley and defensive lineman Bill Willis, thereby integrating a startup league that would eventually merge with the NFL. THE FORGOTTEN FIRST tells the story of one of the most significant cultural shifts in pro football history, as four men opened the door to opportunity and

changed the sport forever.

**cole sprouse call her daddy interview: Pivot** Joanne Soliday, Mark Lombardi, 2019-01-23 The news sure looks bad: rapidly shifting student demographics, the ever-increasing speed of technological innovation, and extreme legislative and public pressure are squeezing colleges and universities into a lose-lose race toward irrelevancy. Detailed in countless articles and books, the challenges faced by institutions of higher learning in the U.S. are varied and weighty. But higher education is far from doomed. It is at this inflection point in which independent colleges and universities have the opportunity to revolutionize higher education. It is time to pivot towards a new university, one that radically refocuses structure and pedagogy on students and their learning; reimagines the foundational institutional structures of leadership, tenure, and the higher education business model; and produces national examples for access and inclusion. In an industry notoriously slow to adapt and evolve, leaders of colleges and universities must act quickly and decisively, committing to a monumental shift to educate students for a world that we cannot yet see: a leap-frog into relevancy that higher education has never experienced. Authors Joanne Soliday and Dr. Mark Lombardi, with their combined decades in higher education leadership and consulting, explicate a picture of possibility for the future of independent colleges and universities, one rooted in the essential value of a liberal arts education that brings students to their highest potential. It is the critical reimagining of how that education is shaped that guides a vision for the new university.

**cole sprouse call her daddy interview: Hi, Anxiety** Kat Kinsman, 2017-05-23 Joining the ranks of such acclaimed accounts as *Manic*, *Brain on Fire*, and *Monkey Mind*, a deeply personal, funny, and sometimes painful look at anxiety and its impact from writer and commentator Kat Kinsman. Feeling anxious? Can't sleep because your brain won't stop recycling thoughts? Unable to make a decision because you're too afraid you'll make the wrong one? You're not alone. In *Hi, Anxiety*, beloved food writer, editor, and commentator Kat Kinsman expands on the high profile pieces she wrote for CNN.com about depression, and its wicked cousin, anxiety. Taking us back to her adolescence, when she was diagnosed with depression at fourteen, Kat speaks eloquently with pathos and humor about her skin picking, hand flapping, "nervousness" that made her the recipient of many a harsh taunt. With her mother also gripped by depression and health issues throughout her life, Kat came to live in a constant state of unease—that she would fail, that she would never find love . . . that she would end up just like her mother. Now, as a successful media personality, Kat still battles anxiety every day. That anxiety manifests in strange, and deeply personal ways. But as she found when she started to write about her struggles, Kat is not alone in feeling like the simple act of leaving the house, or getting a haircut can be crippling. And though periodic medication, counseling, a successful career and a happy marriage have brought her relief, the illness, because that is what anxiety is, remains. Exploring how millions are affected anxiety, *Hi, Anxiety* is a clarion call for everyone—but especially women—struggling with this condition. Though she is a strong advocate for seeking medical intervention, Kinsman implores those suffering to come out of the shadows—to talk about their battle openly and honestly. With humor, bravery, and writing that brings bestsellers like Laurie Notaro and Jenny Lawson to mind, *Hi, Anxiety* tackles a difficult subject with amazing grace.

**cole sprouse call her daddy interview: On a Steel Horse I Ride** Air University Press, 2014-01-17 Pave Low. The term itself generates an image: a dark, wispy night; a low, pulsating rumble approaching from the distance. The rumble becomes a presence, a large helicopter that settles onto the ground amidst the deep darkness. Earnest men of determination spew forth from it. Heavily armed, they quickly set up to collect intelligence, kill enemy troops, rescue downed or isolated friendly personnel, or otherwise conduct a direct action mission. Mission complete, they just as quickly reassemble, reboard the aircraft, and then disappear into the consuming darkness. It is a powerful image—a conjure, if you will—that strikes fear into any enemy of the United States. But the conjure is real. It is a helicopter called the MH-53J/M. That machine is the end result of the evolution of state-of-the-art avionics, communication, and navigation equipment crewed by highly motivated, enthusiastic, and smart young operators well steeped in the principles, heritage, and credo of special operations. It is the classic combination of men and machine. Those aircraft and Airmen were assigned to the US Air Force Special Operations Command (AFSOC), "America's specialized

airpower . . . a step ahead in a changing world, delivering special operations power anytime, anywhere."1 AFSOC controls a mixed fleet of both rotary and fixed-wing aircraft to facilitate the fulfillment of that mission. However, the single aircraft that, in its day, has best epitomized that role is the Pave Low helicopter. It, perhaps more than any other aircraft, allowed the AFSOC to realize its purpose. But it was not always so. The aircraft themselves were revolutionary combinations of new, more powerful turbine engines with rotary-wing aircraft to produce vastly increased lifting power. Conceptualized, built, and designated for simpler missions, they were immediately swept up into the long war in Southeast Asia. There they proved the efficacy of the aircraft for dangerous rescue missions, for the initiation of a whole new generation of developing avionics and navigation technology, for providing challenging direct support to small special forces teams and indigenous forces inserted behind enemy lines, and for a myriad of other things that heavy-lift helicopters could be assigned to do. In accomplishing all of that, they also trained a whole generation of men who learned of combat along the Ho Chi Minh Trail in Laos and at other places like Quang Tri, South Vietnam; Son Tay, North Vietnam; and Koh Tang Island, Cambodia. After that conflict, those aircraft and men were returned to peacetime locations and duties, and much was forgotten of those dangerous times and missions. However, a cadre of dedicated combat aviators and commanders felt that the aircraft and community of Airmen had much more to give. Foreseeing an ever-dangerous world, they harnessed those aircraft to a series of evolving new technologies that vastly improved the aircraft by giving them the ability to traverse airspace in any weather conditions, day and night, and to avoid enemy threats. That concept was validated in operations in Panama, Kuwait, Iraq, Serbia, Afghanistan, and many more smaller and quieter operations in between. The men and aircraft also showed the larger utilitarian value of the aircraft as, over the years, they were called out many times to provide natural disaster and humanitarian relief from Africa to New Orleans, Louisiana.

Diana touched your elbow, your arm, covered your hand with hers. It was alluring. And she was disarmingly confiding. Can I ask you something? Nicholas, please be frank... Over his thirty-year career at Condé Nast, Nicholas Coleridge has witnessed it all. From the anxieties of the Princess of Wales to the blazing fury of Mohamed Al-Fayed, his story is also the story of the people who populate the glamorous world of glossy magazines. With relish and astonishing candour, he offers the inside scoop on Tina Brown and Anna Wintour, David Bowie and Philip Green, Kate Moss and Beyonce; on Margaret Thatcher's clothes legacy, and a surreal weekend away with Bob Geldof and William Hague. Cara Delevingne, media tycoons, Prime Ministers, Princes, Mayors and Maharajas - all cross his path. His career in magazines straddles the glossies throughout their glorious zenith - from the 1970s, 1980s and 1990s to the digital iterations of the 21st century. Having cut his teeth on Tatler, and as Editor-in-Chief of Harpers & Queen, he became the Mr Big of glossy publishing for three decades. Packed with surprising and often hilarious anecdotes, *The Glossy Years* also provides perceptive insight into the changing and treacherous worlds of fashion, journalism, museums and a whole sweep of British society. This is a rich, honest, witty and very personal memoir of a life splendidly lived.

**cole sprouse call her daddy interview: DIY Cultures and Underground Music Scenes** Andy Bennett, Paula Guerra, 2018-12-07 This volume examines the global influence and impact of

DIY cultural practice as this informs the production, performance and consumption of underground music in different parts of the world. The book brings together a series of original studies of DIY musical activities in Europe, North and South America, Asia and Oceania. The chapters combine insights from established academic writers with the work of younger scholars, some of whom are directly engaged in contemporary underground music scenes. The book begins by revisiting and re-evaluating key themes and issues that have been used in studying the cultural meaning of alternative and underground music scenes, notably aspects of space, place and identity and the political economy of DIY cultural practice. The book then explores how the DIY cultural practices that characterize alternative and underground music scenes have been impacted and influenced by technological change, notably the emergence of digital media. Finally, in acknowledging the over 40-year history of DIY cultural practice in punk and post-punk contexts, the book considers how DIY cultures have become embedded in cultural memory and the emotional geographies of place. Through combining high-quality data and fresh conceptual insights in the context of an international body of work spanning the disciplines of popular-music studies, cultural and media studies, and sociology the book offers a series of innovative new directions in the study of DIY cultures and underground/alternative music scenes. This volume will be of particular interest to undergraduate students in the above-mentioned fields of study, as well as an invaluable resource for established academics and researchers working in these and related fields.

**cole sprouse call her daddy interview: Where Am I Now?** Mara Wilson, 2016-09-13 Thoughtfully traces [Mara Wilson's] journey from child actress to Hollywood dropout...Who is she now? She's a writer. —NPR's Guide To 2016's Great Reads "Growing up, I wanted to be Mara Wilson. Where Am I Now? is a delight." —Ilana Glazer, cocreator and star of Broad City Named a best book of the month by GoodReads and Entertainment Weekly A former child actor best known for her starring roles in Matilda and Mrs. Doubtfire, Mara Wilson has always felt a little young and out of place: as the only kid on a film set full of adults, the first daughter in a house full of boys, a Valley girl in New York and a neurotic in California, and a grown-up the world still remembers as a little girl. Tackling everything from what she learned about sex on the set of Melrose Place, to discovering in adolescence that she was no longer "cute" enough for Hollywood, these essays chart her journey from accidental fame to relative (but happy) obscurity. They also illuminate universal struggles, like navigating love and loss, and figuring out who you are and where you belong. Candid, insightful, moving, and hilarious, Where Am I Now? introduces Mara Wilson as a brilliant new chronicler of the experience that is growing up female.

**cole sprouse call her daddy interview: Father of Frankenstein** Christopher Bram, 1999

James Whale was the most brilliant director of horror films Hollywood has ever seen, director of such classics as *Frankenstein* and *Bride of Frankenstein* (and indeed every horror film rated with four stars in Halliwell's Film Guide). But he was by no means a typical Hollywood product, both because he was English and because he was openly gay in the Hollywood of the 30s. Christopher Bram's moving and powerful novel portrays Whale in his last weeks of life in 1957, overwhelmed by images of his past, his working class childhood in Britain, Hollywood premieres in the 30s, friendships with Elsa Lanchester, Charles Laughton and Elizabeth Taylor. Consumed by the contrast between his past and his present obscurity, he conspires with his young gardener to provide his life with the dramatic ending it deserves.
