combat skills training group: Military Training Sharon L. Pickup, 2009-05 Since 9/11, U.S. military forces have sought to adapt to an expanded battlefield -- one in which rear areas are no longer considered safe and secure. As a result, both the Navy and the Air Force determined that, in order to prepare to operate more effectively in combat, servicemembers in specific occupations required additional standardized combat skills training in such areas as land navigation, first aid, and weapons qualification. The Navy has developed and implemented the Expeditionary Combat Skills course for select Navy personnel. To provide similar training, the Air Force began planning its program. This report is an analysis of these programs. It also identifies lessons learned applicable to

efforts to establish new training programs. Illus.

combat skills training group: *The Right Kind of Crazy* Clint Emerson, 2020-06-02 Clint Emerson, retired Navy SEAL and author of the bestselling *100 Deadly Skills*, presents an explosive, darkly funny, and often twisted account of being part of an elite team of operatives whose mission was to keep America safe by whatever means necessary. Clint Emerson is the only SEAL ever inducted into the International Spy Museum. Operating from the shadows, with an instinct for running towards trouble, his unique skill set made him the perfect hybrid operator. Emerson spent his career on the bleeding edge of intelligence and operations, often specializing in missions that took advantage of subterfuge, improvisation, the best in recon and surveillance tech to combat the changing global battlefield. MacGyvering everyday objects into working spyware was routine, and fellow SEALs referred to his activities simply as “special shit.” His parameters were: find, fix, and finish—and of course, leave no trace. *The Right Kind of Crazy* is unlike any military memoir you’ve ever read because Emerson is upfront about the fact that what makes you a great soldier and sometimes hero doesn’t always make you the best guy—but it does make for damn good stories.
