command the message sales training: SPIN® -Selling Neil Rackham, 2020-04-28 True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

command the message sales training: MEDDIC Andy Whyte, 2020-11-25 What do the world's most successful enterprise sales teams have in common? They rely on MEDDIC to make their sales process predictable and efficient. MEDDIC with one C was initially created by Dick Dunkel in 1996 when he was at PTC. Since then MEDDIC has evolved to be better known as MEDDIC or MEDDPIC and has proliferated across the world being the go-to choice for elite enterprise sales organizations. If you ever find yourself feeling any of the following symptoms with your deal, you could benefit from MEDDIC: Your buyer doesn't see the value of your solution? (aka they think you are expensive) You are unable to find, articulate and quantify Pain You don't have a Champion or at the very least a Coach helping you navigate and sell You find yourself unable to gain access to people with power and influence You don't know how the customer makes decisions You don't know who is involved in the decision-making process You find yourself surprised by things that come up in the sales process The decision criteria seem to move throughout the process, and you're constantly playing catch up Your Competition is landing strikes against you that you neither see coming nor are able to defend You lose track of where you stand in your deals Whether you are an individual contributor or a sales leader embracing MEDDIC will help you to beat those symptoms and take back control of your deal. Historically, learning MEDDIC has relied upon hands-on training, but now you can learn MEDDIC from an expert who uses it every day. The Book deconstructs MEDDIC into easy to understand and implement steps. Breaking down every letter of the acronym into actionable insights complemented by commentary on how MEDDIC can help sales organizations to revolutionize their sales execution and efficiency. In the words of the original creator of MEDDIC, Dick Dunkel: Whether you are an individual contributor or sales leader, my advice is that you should start to implement MEDDIC into what you do straight away. Embrace MEDDIC, and you and your team will more clearly understand the WHY to your process, and you'll begin to execute your customer interactions with more purpose and achieve better results. And like so many others before, you will begin to reap the rewards of having a well-qualified pipeline of opportunities with clearer paths to success. - Dick Dunkel, MEDDIC Creator.

command the message sales training: Sales EQ Jeb Blount, 2017-03-20 The New Psychology of Selling The sales profession is in the midst of a perfect storm. Buyers have more power—more information, more at stake, and more control over the sales process—than any time in history. Technology is bringing disruptive change at an ever-increasing pace, creating fear and uncertainty that leaves buyers clinging to the status quo. Deteriorating attention spans have made it difficult to get buyers to sit still long enough to “challenge,” “teach,” “help,” give “insight,” or sell “value.” And a relentless onslaught of “me-too” competitors have made differentiating on the attributes of products, services, or even price more difficult than ever. Legions of salespeople and their leaders are coming face to face with a cold hard truth: what once gave salespeople a competitive edge—controlling the sales process, command of product knowledge, an arsenal of technology, and a great pitch—are no longer guarantees of success. Yet this is where the vast majority of the roughly \$20 billion spent each year on sales training goes. It’s no wonder many companies are seeing 50 percent or more of their salespeople miss quota. Yet, in this new paradigm, an elite group of top 1 percent sales professionals are crushing it. In our age of technology where information is ubiquitous and buyer attention spans are fleeting, these superstars have learned how to leverage a new psychology of selling—Sales EQ—to keep prospects engaged, create true competitive differentiation, as well as shape and influence buying decisions. These top earners are acutely aware that the experience of buying from them is far more important than products, prices, features, and solutions. In Sales EQ, Jeb Blount takes you on an unprecedented journey into the behaviors, techniques, and secrets of the highest earning salespeople in every industry and field. You’ll learn: How to answer the 5 Most Important Questions in Sales to make it virtually impossible for prospects to say no How to master 7 People Principles that will give you the power to influence anyone to do almost anything How to shape and align the 3 Processes of Sales to lock out competitors and shorten the sales cycle How to Flip the Buyer Script to gain complete control of the sales conversation How to Disrupt Expectations to pull buyers towards you, direct their attention, and keep them engaged How to leverage Non-Complementary Behavior to eliminate resistance, conflict, and objections How to employ the Bridge Technique to gain the micro-commitments and next steps you need to keep your deals from stalling How to tame Irrational Buyers, shake them out of their comfort zone, and shape the decision making process How to measure and increase you own Sales EQ using the 15 Sales Specific Emotional Intelligence Markers And so much more! Sales EQ begins where The Challenger Sale, Strategic Selling, and Spin Selling leave off. It addresses the human relationship gap in the modern sales process at a time when sales organizations are failing because many salespeople have never been taught the human skills required to effectively engage buyers at the emotional level. Jeb Blount makes a compelling case that sales specific emotional intelligence (Sales EQ) is more essential to success than education, experience, industry awareness, product knowledge, skills, or raw IQ; and, sales professionals who invest in developing and improving Sales EQ gain a decisive competitive advantage in the hyper-competitive global marketplace. Sales EQ arms salespeople and sales leaders with the tools to identify their most important sales specific emotional intelligence developmental needs along with strategies, techniques, and frameworks for reaching ultra-high performance and earnings, regardless of sales process, industry, deal complexity, role (inside or outside), product or service (B2B or B2C).

command the message sales training: *ALWAYS BE QUALIFYING* Darius Lahoutifard, 2020-06-30 In the past few years, companies large and small have called on me to get help with their non-performing sales team. The described symptoms are different from one company to another. Some need more revenue. Others complain about unreliable forecasts, with deals slipping constantly from one quarter to another before being lost or even abandoned a few quarters later. Some CEOs notice unproductive sales teams with an unusually high number of non-quota-carrying people needed in the sales force, hitting the bottom line hard. All these symptoms are related to the same illness: inability to qualify. Since most sales teams put in place organizations including SDR (Sales Development Representatives) or BDR (Business Development Representatives) who qualify leads for Account Managers, there is a wrong unstated assumption, widely spread, that once a lead is

qualified, the inside sales or field sales will have to work on them until they are won or lost. Ongoing qualification is often the issue. Qualification is not a binary step of the sales process. Qualification is a mindset and a habit to apply throughout the sales process, from the first call to closing. This book covers both the Why and the How of sales qualification. I was an early sales leader at PTC where the MEDDIC methodology took shape. I am also the founder of MEDDIC Academy, the first platform to bring the qualification methodology online. This book describes the M.E.D.D.I.C. and the MEDDPIC® sales methodology in depth. This is not a book of theories, research, or academic concepts but pure execution techniques with practical recipes. At a high level, MEDDIC is a checklist that helps sales professionals reveal the gaps in an opportunity and execute correctly to fill those gaps and close the deal or drop it early. This book is an excellent complement to the training and workshops we deliver online and in-person globally.

command the message sales training: *SNAP Selling* Jill Konrath, 2010-05-27 Selling is tougher than ever before. Potential customers are under extreme pressure to do more with less money, less time, and fewer resources, and they're wary of anyone who tries to get them to buy or change anything. Under such extreme conditions, yesterday's sales strategies no longer work. No matter how great your offering, you face the daunting task of making yourself appear credible, relevant, and valuable. Now, internationally recognized sales strategist Jill Konrath shows how to overcome these obstacles to get more appointments, speed up decisions, and win sales with these short-fused, frazzled customers. Drawing on her years of selling experience, as well as the stories of other successful sellers, she offers four SNAP Rules: -Keep it Simple: When you make things easy and clear for your customers, they'll change from the status quo. -Be iNvaluable: You have to stand out by being the person your customers can't live without. -Always Align: To be relevant, make sure you're in synch with your customers' objectives, issues, and needs. -Raise Priorities: To maintain momentum, keep the most important decisions at the forefront of their mind. SNAP Selling is an easy-to-read, easy-to-use guide for any seller in today's increasingly frenzied environment.

command the message sales training: *Eat Their Lunch* Anthony Iannarino, 2018-11-06 The first ever playbook for B2B salespeople on how to win clients and customers who are already being serviced by your competition, from the author of *The Only Sales Guide You'll Ever Need* and *The Lost Art of Closing*. Like it or not, sales is often a zero-sum game: Your win is someone else's loss. Most salespeople work in mature, overcrowded industries, your offerings perceived (often unfairly) as commodities. Growth requires taking market share from your competitors, while they try to do the same to you. How else can you grow 12 percent a year in an industry that's only growing by 3 percent? It's not easy for any salesperson to execute a competitive displacement--or, in other words, eat their lunch. You might think this requires a bloodthirsty whatever it takes attitude, but that's the opposite of what works. If you act like a Mafia don, you only make yourself difficult to trust and impossible to see as a long-term partner. Instead, this book shows you how to find and maintain a

long-term competitive advantage by taking steps like: ranking prospective new clients not by their size or convenience to you, but by who stands to gain the most from your solution. understanding the different priorities for everyone in your prospect's organization, from the CEO to the accountants, and addressing their various concerns. developing a systematic contact plan for all those different stakeholders so you can win over the right people at the organization in the optimal sequence. Your competitors may be tough, but with the strategies you'll discover in this book, you'll soon be eating their lunch.

Braganca, Minsung Byun, David Crighton, Kiran Darbha, Jefferson Lowrey, Pavel Malyutin, Abhinav Priyadarshi, Rashmi Katagall, IBM Redbooks, 2012-08-31 IBM WebSphere® Message Broker is a lightweight, advanced enterprise service bus (ESB) that provides a broad range of integration capabilities that enable companies to rapidly integrate internal applications and connect to partner applications. Messages from business applications can be transformed, augmented and routed to other business applications. The types and complexity of the integration required will vary by company, application types, and a number of other factors. Processing logic in WebSphere Message Broker is implemented using message flows. Through message flows, messages from business applications can be transformed, augmented, and routed to other business applications. Message flows are created by connecting nodes together. A wide selection of built-in nodes are provided with WebSphere Message Broker. These nodes perform tasks that are associated with message routing, transformation, and enrichment. Message flows are created and tested using the Message Broker Toolkit, a sophisticated, easy-to-use programming tool that provides a full range of programming aids. This IBM® Redbooks® publication focuses on two specific integration requirements that apply to many midmarket companies. The first is the ability to use WebSphere Message Broker to integrate Microsoft.NET applications into a broader connectivity solution. WebSphere Message Broker V8 introduces the ability to integrate with existing Microsoft .NET Framework applications. A .NET assembly can be called from within a message flow and the WebSphere Message Broker runtime can host and run .NET code. Solutions explored in this book cover connectivity to applications using Windows Communications Framework (WCF), Microsoft Message Queuing, Microsoft Dynamics CRM, and other Microsoft applications. The second is the ability to integrate WebSphere Message Broker with file transfer networks, specifically with WebSphere MQ File Transfer Edition and IBM Sterling Connect Direct.

command the message sales training: *Sell the Way You Buy* David Priemer, 2020-04-07 While a Vice President at Salesforce, David Priemer had an epiphany during one of the company's

high-pressure selling periods: the very sales tactics they were using were not working on him. Yes, the numbers still showed results, but through brute force rather than elegance and efficiency. Priemer also discovered that his sales colleagues were spending far more time on leads that did not convert to sales than on those that did. His company--and his entire profession--was acting with more than enough gusto, but without enough awareness and empathy. They were not selling the way they buy. *Sell the Way You Buy* is about much more than putting yourself in the customer's shoes. Customers don't always know what they want or need, or they may be seeking a solution for something that isn't their core problem. They suffer from status quo bias, from recency bias, from confirmation bias. And meanwhile, the state of overwhelming choice has most products and solution providers adrift in the Sea of Sameness. In today's world, almost everyone is in sales, but as Priemer realized, we don't teach it. *Sell the Way You Buy* will show you how to ask questions, how to listen, how to tell a compelling brand story, and how to talk to customers (how to talk to people). Priemer reveals scientifically supported methods to understand the customer, identify their needs, and move them toward the right solution--all the while teaching you to avoid all the reasons why the average person doesn't like salespeople. In short, to sell the way you buy.

command the message sales training: The Koehler Method of Dog Training William R. Koehler, 2016-04-09 For generations, The Koehler Method of Dog Training has been a beacon of wisdom for dog owners seeking effective techniques to build a strong bond with their furry companions. William Koehler's approach, rooted in respect for dogs' intelligence, remains as relevant today as it was when the book first graced the shelves. Koehler believed that dogs could make choices and be held accountable for their behavior. His method follows the pattern of Action → Memory → Desire: dogs act, remember the outcomes, and form desires based on those experiences. Correcting behavior becomes fair, reasonable, and expected once the training has been successfully imparted. command the message sales training: Partnership for the Americas: Western Hemisphere Strategy and U.S. Southern Command James G. Stavridis, RADM James G. Stavridis, 2014-02-23 Since its creation in 1963, United States Southern Command has been led by 30 senior officers representing all four of the armed forces. None has undertaken his leadership responsibilities with the cultural sensitivity and creativity demonstrated by Admiral Jim Stavridis during his tenure in command. Breaking with tradition, Admiral Stavridis discarded the customary military model as he organized the Southern Command Headquarters. In its place he created an organization designed not to subdue adversaries, but instead to build durable and enduring partnerships with friends. His observation that it is the business of Southern Command to launch ideas not missiles into the command's area of responsibility gained strategic resonance throughout the Caribbean and Central and South America, and at the highest levels in Washington, DC.
