

# Containment World History Definition

**containment world history definition: Strategies of Containment** John Lewis Gaddis, 2005-06-23 When *Strategies of Containment* was first published, the Soviet Union was still a superpower, Ronald Reagan was president of the United States, and the Berlin Wall was still standing. This updated edition of Gaddis' classic carries the history of containment through the end of the Cold War. Beginning with Franklin D. Roosevelt's postwar plans, Gaddis provides a thorough critical analysis of George F. Kennan's original strategy of containment, NSC-68, The Eisenhower-Dulles New Look, the Kennedy-Johnson flexible response strategy, the Nixon-Kissinger strategy of detente, and now a comprehensive assessment of how Reagan - and Gorbachev - completed the process of containment, thereby bringing the Cold War to an end. He concludes, provocatively, that Reagan more effectively than any other Cold War president drew upon the strengths of both approaches while avoiding their weaknesses. A must-read for anyone interested in Cold War history, grand strategy, and the origins of the post-Cold War world.

**containment world history definition: Containment Culture** Alan Nadel, 1995 Alan Nadel provides a unique analysis of the rise of American postmodernism by viewing it as a breakdown in Cold War cultural narratives of containment. These narratives, which embodied an American postwar foreign policy charged with checking the spread of Communism, also operated, Nadel argues, within a wide spectrum of cultural life in the United States to contain atomic secrets, sexual license, gender roles, nuclear energy, and artistic expression. Because these narratives were deployed in films, books, and magazines at a time when American culture was for the first time able to dominate global entertainment and capitalize on global production, containment became one of the most widely disseminated and highly privileged national narratives in history. Examining a broad sweep of American culture, from the work of George Kennan to *Playboy Magazine*, from the movies of Doris Day and Walt Disney to those of Cecil B. DeMille and Alfred Hitchcock, from James Bond to Holden Caulfield, Nadel discloses the remarkable pervasiveness of the containment narrative. Drawing subtly on insights provided by contemporary theorists, including Baudrillard, Foucault, Jameson, Sedgwick, Certeau, and Hayden White, he situates the rhetoric of the Cold War within a gendered narrative powered by the unspoken potency of the atom. He then traces the breakdown of this discourse of containment through such events as the Bay of Pigs invasion and the Free Speech Movement at Berkeley, and ties its collapse to the onset of American postmodernism, typified by works such as *Catch-22* and *The Man Who Shot Liberty Valence*. An important work of cultural criticism, *Containment Culture* links atomic power with postmodernism and postwar politics, and shows how a multifarious national policy can become part of a nation's cultural agenda and a source of meaning for its citizenry.

**containment world history definition: Russia Leaves the War** George Frost Kennan, 2023-01-24 Winner of the Pulitzer Prize, the National Book Award, the Bancroft Prize, and the Parkman Prize From acclaimed diplomat and historian George Kennan, a landmark history of the crucial months in 1917-1918 that forged the pattern of Soviet-American relations When the Bolsheviks seized power in November 1917, American diplomats in St. Petersburg and Moscow were thrown into a bewildering situation. Should the new regime be recognized? What was its true nature? And was there any way to keep Russia fighting against Germany in the Great War? In vivid detail, George Kennan's classic history tells the gripping story of the Americans' furious, and ultimately failed, efforts to strike a deal to keep the Soviets in the war—and how these events set the pattern of future relations between the two emerging superpowers. In a new foreword, Kennan biographer Frank Costigliola puts the book in the context of its Cold War publication and Kennan's life.

**containment world history definition: Memoirs 1925-1950** George F. Kennan, 2020-12-09

George F. Kennan's second volume of memoirs is *Memoirs 1950-1963*. Winner of the Pulitzer Prize for Biography and of the National Book Award for History and Biography in 1968, this is the personal and professional record of one of America's most distinguished diplomats. An intimate and thought-provoking account of diplomatic history, it may be the "single most valuable political book written by an American in the twentieth century." (The New Republic). "[A] remarkably candid, beautifully written and utterly fascinating intellectual career autobiography of a distinguished diplomat and scholar... This is, in short, major history, and here augmented by selections from the author's journal and his policy memorandums. It gives an intimate view of how policy, particularly that pertaining to Soviet-American affairs, was fashioned, influenced, criticized and implemented... through it all emerges the portrait of a brilliant man of keen observation, depth of knowledge and strong opinion." — Eliot Fremont-Smith, *The New York Times* "[A] historically invaluable, often mercilessly candid 'intellectual autobiography.'" — Murrey Marder, *The Washington Post* "These memoirs are expertly written, often fascinating... this is an important book, both as diplomatic history and as intellectual biography... Kennan is perhaps the most impressive figure ever to have emerged from the shadowy labyrinth of the American diplomatic establishment." — Ronald Steel, *The New York Review of Books* "From these pages there emerge both the sensitive, introspective, compassionate human being and the sometimes frustrated diplomat. Ranging from his observations of the German occupation of Prague to the genesis of the 'X' article in *Foreign Affairs* and the problems of the postwar world, these vignettes from the author's diaries are skillfully linked into a consecutive story of lasting historical importance." — John G. Stoessinger, *Foreign Affairs* "[A] major contribution to the diplomatic history of our time." — Dimitri von Mohrenschildt, *The Russian Review* "This widely acclaimed volume — recipient of the Pulitzer Prize and the National Book Award — can be read as the first installment in the autobiography of an eminent historian; as the intellectual odyssey of a sensitive student of international relations; as an instructive portrait of a professional diplomat, alienated from society and impatient with domestic pressures; as a contribution to the historiography of the cold war; and as a commentary on decision making in recent American foreign policy. It is immensely useful in each area and, like all of Kennan's works, beautifully written." — Richard W. Leopold, *The American Historical Review* "George Kennan's *Memoirs: 1925-1950* may well become a standard by which future American diplomatic autobiographies will be judged — a standard difficult to emulate... [an] immensely interesting book... This biography paints a panorama of unusual personal dimensions." — Paul Seabury, *Slavic Review* "Kennan was an enormously healthy and stimulating influence in our diplomatic establishment, and his *Memoirs* provide a provocative analysis of the intellectual, political, and military thinking that went into the evolution of our attitudes and policies for some twenty-five years." — Smith Simpson, *The Annals of the American Academy of Political and Social Science* "George Kennan, who already has a substantial reputation as a professional diplomat and Pulitzer Prize-winning historian, has now ensured his place in history with this volume of *Memoirs*." — Robert A. Divine, *The Journal of Southern History* "[Kennan's] lucid, elegant, scrupulous, even finicky account of his career is an excellent way to understand exactly how our foreign policy is shaped and why it ought to be shaped differently. His ambition is to alter the conduct of American foreign policy by influencing the climate of opinion and thereby those who will formulate that policy." — George P. Elliott, *The Hudson Review* "[Kennan] focuses on essentials and illuminates them; in so doing his sense of the drama of events merges with the drama of self. His literary style, genuine and full, carries well the weight of complex considerations. His sense of responsibility in public service — for the public good as he sees it — shines out truly and clearly. What a good man, what an attractive man, what an instructive and elevating commentator!" — Herbert Feis, *The Virginia Quarterly Review* "George Kennan's lantern illuminates the world; it shines like a beacon in an era of militarist adventure and 'personalized' foreign policy." — Harrison E. Salisbury, *Saturday Review*

**containment world history definition: Coercive Inducement and the Containment of International Crises** Donald Charles Daniel, Bradd C. Hayes, Chantal de Jonge Oudraat, 1999 The concept of a middle ground between simple peace enforcement and traditional peacekeeping by

lightly armed observers has been both ill defined and controversial. But the authors of this thoughtful yet challenging volume make a strong case for both the practicability and the desirability of such operations. Coercive inducement the term was suggested by Kofi Annan, when he was undersecretary general for peacekeeping is a form of coercive diplomacy that relies more on the deployment and demonstration of military force than on the use of force per se. In the absence of such an option, the international community finds it hard to respond to a variety of crises, including ones that can spiral into genocide. After first laying out general principles, the book explores four recent UN operations (in Somalia, Rwanda, Bosnia, and Haiti) in which coercive inducement was particularly relevant, and then presents operational guidelines for its use. Clear-sighted and pragmatic throughout, the authors conclude by suggesting when and to what extent the international community should commit itself to undertake coercive inducement.

**containment world history definition: American Foreign Relations: A Very Short Introduction** Andrew Preston, 2019-04-01 For better or worse--be it militarily, politically, economically, technologically, or culturally--Americans have had a profound role in shaping the wider world beyond them. The United States has been a savior to some, a curse to others, but either way such views are often based on a caricature of American actions and intentions. American Foreign Relations, then, is a subject of immense global importance that provokes strong emotions and much debate, but often based on deep misunderstanding. This Very Short Introduction analyzes the key episodes, themes, and individuals in the history of American foreign relations. While discussing diplomacy and the periods of war that have shaped national and international history, it also addresses such topics as industrialization, globalization, imperialism, and immigration. Covering the Revolution through the War on Terror, it examines the connections between domestic politics and foreign affairs, as well as the importance of ideals and values. Sharply written and highly readable, American Foreign Relations offers a clear-eyed narrative of America's role in the world and how it has evolved over time. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**containment world history definition: The Closed World** Paul N. Edwards, 1996 The Closed World offers a radically new alternative to the canonical histories of computers and cognitive science. Arguing that we can make sense of computers as tools only when we simultaneously grasp their roles as metaphors and political icons, Paul Edwards shows how Cold War social and cultural contexts shaped emerging computer technology--and were transformed, in turn, by information machines. The Closed World explores three apparently disparate histories--the history of American global power, the history of computing machines, and the history of subjectivity in science and culture--through the lens of the American political imagination. In the process, it reveals intimate links between the military projects of the Cold War, the evolution of digital computers, and the origins of cybernetics, cognitive psychology, and artificial intelligence. Edwards begins by describing the emergence of a closed-world discourse of global surveillance and control through high-technology military power. The Cold War political goal of containment led to the SAGE continental air defense system, Rand Corporation studies of nuclear strategy, and the advanced technologies of the Vietnam War. These and other centralized, computerized military command and control projects--for containing world-scale conflicts--helped closed-world discourse dominate Cold War political decisions. Their apotheosis was the Reagan-era plan for a Star Wars space-based ballistic missile defense. Edwards then shows how these military projects helped computers become axial metaphors in psychological theory. Analyzing the Macy Conferences on cybernetics, the Harvard Psycho-Acoustic Laboratory, and the early history of artificial intelligence, he describes the formation of a cyborg discourse. By constructing both human minds and artificial intelligences as information machines, cyborg discourse assisted in integrating people into the hyper-complex technological systems of the closed world. Finally, Edwards explores the cyborg as political identity

in science fiction--from the disembodied, panoptic AI of 2001: A Space Odyssey, to the mechanical robots of Star Wars and the engineered biological androids of Blade Runner--where Information Age culture and subjectivity were both reflected and constructed. Inside Technology series

**containment world history definition: Learning from SARS** Institute of Medicine, Board on Global Health, Forum on Microbial Threats, 2004-04-26 The emergence of severe acute respiratory syndrome (SARS) in late 2002 and 2003 challenged the global public health community to confront a novel epidemic that spread rapidly from its origins in southern China until it had reached more than 25 other countries within a matter of months. In addition to the number of patients infected with the SARS virus, the disease had profound economic and political repercussions in many of the affected regions. Recent reports of isolated new SARS cases and a fear that the disease could reemerge and spread have put public health officials on high alert for any indications of possible new outbreaks. This report examines the response to SARS by public health systems in individual countries, the biology of the SARS coronavirus and related coronaviruses in animals, the economic and political fallout of the SARS epidemic, quarantine law and other public health measures that apply to combating infectious diseases, and the role of international organizations and scientific cooperation in halting the spread of SARS. The report provides an illuminating survey of findings from the epidemic, along with an assessment of what might be needed in order to contain any future outbreaks of SARS or other emerging infections.

**containment world history definition: The Cold War at Home** Philip Jenkins, 1999 One of the most significant industrial states in the country, with a powerful radical tradition, Pennsylvania was, by the early 1950s, the scene of some of the fiercest anti-Communist activism in the United States. Philip Jenkins examines the political an

**containment world history definition: The Marshall Plan** Benn Steil, 2018 Traces the history of the Marshall Plan and the efforts to reconstruct western Europe as a bulwark against communist authoritarianism during a two-year period that saw the collapse of postwar U.S.-Soviet relations and the beginning of the Cold War.

**containment world history definition: Military Strategy: A Very Short Introduction** Antulio J. Echevarria II, 2024 Military Strategy: A Very Short Introduction adapts Clausewitz's framework to highlight the dynamic relationship between the main elements of strategy: purpose, method, and means. Drawing on historical examples, Antulio J. Echevarria discusses the major types of military strategy and how emerging technologies are affecting them. This second edition has been updated to include an expanded chapter on manipulation through cyberwarfare and new further reading.

**containment world history definition: Sketches from a Life** George Frost Kennan, 2000 George Kennan's private diaries provide a portrait of his life and times and the key cities and countries he served in as ambassador.

**containment world history definition: Acheson** James Chace, 2008-06-30 The highly acclaimed biography of one of the most important and controversial Secretaries of State of the twentieth century, this is an intimate portrait of the quintessential man of action who was vilified by the McCarthyites for being soft on communism, yet set in place the strategies and policies that won the Cold War and brought down the USSR. This is the authoritative biography of Dean Acheson, the most important and controversial secretary of state of the twentieth century. Drawing on Acheson family diaries and letters as well as revelations from Russian and Chinese archives, historian James Chace traces Acheson's remarkable life, from his days as a schoolboy at Groton and his carefree life at Yale to his work for President Franklin Roosevelt on international financial policy and his unique partnership with President Truman. It is an important and dramatic work of history chronicling the momentous decisions, events, and fascinating personalities of the most critical decades of American history.

**containment world history definition: The Cambridge History of America and the World: Volume 4, 1945 to the Present** David C. Engerman, Max Paul Friedman, Melani McAlister, 2022-03-03 The fourth volume of The Cambridge History of America and the World examines the heights of American global power in the mid-twentieth century and how challenges from at home

and abroad altered the United States and its role in the world. The second half of the twentieth century marked the pinnacle of American global power in economic, political, and cultural terms, but even as it reached such heights, the United States quickly faced new challenges to its power, originating both domestically and internationally. Highlighting cutting-edge ideas from scholars from all over the world, this volume anatomizes American power as well as the counters and alternatives to 'the American empire.' Topics include US economic and military power, American culture overseas, human rights and humanitarianism, third-world internationalism, immigration, communications technology, and the Anthropocene.

**containment world history definition:** *The Asia-Pacific Security Lexicon* David H. Capie, Paul M. Evans, 2002 In the turbulent decade since the ending of the Cold War in Europe, a new element of the international relations of Asia and the Pacific has been the emergence of multilateral security dialogues. Both in governmental arenas such as the ASEAN Regional Forum and numerous track two channels including the Council for Security Co-operation in Asia-Pacific, it has been a decade of creative interaction and new thinking. The Asia-Pacific Security Lexicon identifies the key phrases and ideas that have been the foundation of these dialogues, looking at their origins in international diplomacy and tracing their specific adaptation and modification to the conditions of a trans-Pacific setting. Of interest to both theoreticians and practitioners, the Lexicon is at once a handbook for regional diplomacy and an assessment of the factors that have shaped regional discussions.

**containment world history definition:** *At a Century's Ending* George Frost Kennan, 1997 In this new volume of essays, reviews, and speeches, statesman George F. Kennan reflects on the forces that have shaped this tragic century. It is an inspiration to read (Kennan's) reflections on the eternal truths of mortality and power.--John Keegan, London Daily Telegraph.

**containment world history definition:** *Memoirs 1950-1963* George F. Kennan, 2020-12-13 George F. Kennan's first volume of memoirs is *Memoirs 1925-1950*. In the second volume of his memoirs, George Kennan resumes the narrative of his remarkable career, re-creating his development as a historian and analyzing the crucial issues of the twentieth century. "I don't see how a memoir could be better; even if you aren't interested in the subject at hand, the language carries you along. And the story here told — with all action subject to the finest Kennan introspection — is both important and absorbing... All of it is graced by the Kennan style; all is stamped with the Kennan foreign-policy trademark [which] consists of an ability to think clearly about complicated matters with an utter independence of mind. He draws on a superb stock of historical knowledge... Most of the conclusions that George Kennan has reached over the years involve, in one way or another, the Soviet Union, and they emerge with admirable clarity from this book... [Kennan is the] most brilliant and civilized of students of the public scene." — John Kenneth Galbraith, *The New York Times* "Delightfully written and appallingly frank... Mr. Kennan writes with a freedom and a sensitivity which carry the reader easily into a much deeper understanding of the difficulties of foreign policy-making in a mass democracy of the American model." — D.C. Watt, *New Statesman* "[An] engrossing volume... this volume and its predecessor form one of the outstanding memoirs of our time." — Richard W. Leopold, *The American Historical Review* "[T]his second volume of his memoirs can be read with as much speed and pleasure as a novel... This book is frank, honest, and introspective, and it therefore reveals a great deal about Kennan as a person... Kennan is obviously a complex, fascinating character — intelligent, proud, articulate, independent-minded, dedicated to serving his country, concerned over the fate of the world, generous in giving of his time to others, and yet suffering the pangs of frustration, loneliness, and alienation from his native land." — Thomas T. Hammond, *The Russian Review* "As scholar and diplomatist, policymaker and critic of policy, George F. Kennan possesses a rare combination of expertise and experience... This book is notable for its lucid style and for the verbal portraits which it presents of such persons as Acheson, Dulles, Truman, Eisenhower, Stalin, and Tito... this volume ranks as an important contribution to our understanding of American postwar foreign policy." — Robert L. Pfaltzgraff, Jr., *The Annals of the American Academy of Political and Social Science* "[T]here is much here worth any serious student's time, indeed close attention... Kennan should and will be read" — Kirkus "Kennan writes so well it is

no doubt his intention that, though he shows himself plainly as a public figure, as a private person he remains elusive — a sort of Marquand character: gentlemanly, conservative (in the best sense), urbane, direct and honest; yet to any but his friends very private. I'm glad. There are so few celebrated men who refuse to become celebrities." — Richard J. Walton, *The Washington Post*

**containment world history definition: The Decline of the West** Oswald Spengler, Arthur Helps, Charles Francis Atkinson, 1991 Spengler's work describes how we have entered into a centuries-long world-historical phase comparable to late antiquity, and his controversial ideas spark debate over the meaning of historiography.

**containment world history definition: Canada and the Cold War** Reginald Whitaker, Steve Hewitt, 2003-10-19 Canada and the Cold War is a fascinating historical overview of a key period in Canadian history. The focus is on how Canada and Canadians responded to the Soviet Union -- and to America's demands on its northern neighbour.

**containment world history definition: End of History and the Last Man** Francis Fukuyama, 2006-03-01 Ever since its first publication in 1992, the New York Times bestselling *The End of History and the Last Man* has provoked controversy and debate. Profoundly realistic and important...supremely timely and cogent...the first book to fully fathom the depth and range of the changes now sweeping through the world. —*The Washington Post Book World* Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.

**containment world history definition: The Eccentric Realist** Mario Del Pero, 2011-03-15 During the 2008 election season, the Democratic and Republican presidential candidates both aspired to be understood as foreign policy realists in the mold of Henry Kissinger. Kissinger, who is distrusted on the neoconservative right for his skepticism about American exceptionalism and on the liberal left for his amoral, realpolitik approach, once again stood as the sage of foreign relations and the wise man who rises above partisan politics. In *The Eccentric Realist*, Mario Del Pero questions this depiction of Kissinger. Lauded as the foreign policy realist par excellence, Kissinger, as Del Pero shows, has been far more ideological and inconsistent in his policy formulations than is commonly realized. Del Pero considers the rise and fall of Kissinger's foreign policy doctrine over the course of the 1970s—beginning with his role as National Security Advisor to Nixon and ending with the collapse of détente with the Soviet Union after Kissinger left the scene as Ford's outgoing Secretary of State. Del Pero shows that realism then (not unlike realism now) was as much a response to domestic politics as it was a cold, hard assessment of the facts of international relations. In the early 1970s, Americans were weary of ideological forays abroad; Kissinger provided them with a doctrine that translated that political weariness into foreign policy. Del Pero argues that Kissinger was keenly aware that realism could win elections and generate consensus. Moreover, over the course of the 1970s it became clear that realism, as practiced by Kissinger, was as rigid as the neoconservatism that came to replace it. In the end, the failure of the détente forged by the realists was not the defeat of cool reason at the hands of ideologically motivated and politically savvy neoconservatives. Rather, the force of American exceptionalism, the touchstone of the neocons, overcame Kissinger's political skills and ideological commitments. The fate of realism in the 1970s raises interesting questions regarding its prospects in the early years of the twenty-first century.

**containment world history definition: The Age of Eisenhower** William I Hitchcock, 2018-03-20 A New York Times bestseller, this is the "outstanding" (*The Atlantic*), insightful, and authoritative account of Dwight Eisenhower's presidency. Drawing on newly declassified documents and thousands of pages of unpublished material, *The Age of Eisenhower* tells the story of a masterful president guiding the nation through the great crises of the 1950s, from McCarthyism and the Korean War through civil rights turmoil and Cold War conflicts. This is a portrait of a skilled leader who, despite his conservative inclinations, found a middle path through the bitter partisanship of his era. At home, Eisenhower affirmed the central elements of the New Deal, such as Social Security; fought the demagoguery of Senator Joseph McCarthy; and advanced the agenda of civil rights for

African-Americans. Abroad, he ended the Korean War and avoided a new quagmire in Vietnam. Yet he also charted a significant expansion of America's missile technology and deployed a vast array of covert operations around the world to confront the challenge of communism. As he left office, he cautioned Americans to remain alert to the dangers of a powerful military-industrial complex that could threaten their liberties. Today, presidential historians rank Eisenhower fifth on the list of great presidents, and William Hitchcock's "rich narrative" (The Wall Street Journal) shows us why Ike's stock has risen so high. He was a gifted leader, a decent man of humble origins who used his powers to advance the welfare of all Americans. Now more than ever, with this "complete and persuasive assessment" (Booklist, starred review), Americans have much to learn from Dwight Eisenhower.

**containment world history definition: American Government 3e** Glen Krutz, Sylvie Waskiewicz, 2023-05-12 Black & white print. American Government 3e aligns with the topics and objectives of many government courses. Faculty involved in the project have endeavored to make government workings, issues, debates, and impacts meaningful and memorable to students while maintaining the conceptual coverage and rigor inherent in the subject. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. In order to help students understand the ways that government, society, and individuals interconnect, the revision includes more examples and details regarding the lived experiences of diverse groups and communities within the United States. The authors and reviewers sought to strike a balance between confronting the negative and harmful elements of American government, history, and current events, while demonstrating progress in overcoming them. In doing so, the approach seeks to provide instructors with ample opportunities to open discussions, extend and update concepts, and drive deeper engagement.

**containment world history definition: Nuclear Weapons And Foreign Policy** Henry A. Kissinger, 2023-06-01 Nuclear Weapons and Foreign Policy is a landmark work that offers a groundbreaking analysis of one of the most pressing issues of our time. Written by Henry Kissinger, one of the foremost experts on foreign policy, this book provides a comprehensive examination of the role of nuclear weapons in shaping international relations. First published in 1957, this book remains as relevant today as it was when it was first written. In it, Kissinger offers a clear-eyed and insightful analysis of the strategic calculations and geopolitical realities that have driven the development and deployment of nuclear weapons. Drawing on his extensive experience as a scholar and policymaker, Kissinger provides a detailed examination of the ways in which nuclear weapons have influenced the behaviour of states and shaped the course of world events. He explores the complex relationships between nuclear powers, the dangers of nuclear proliferation, and the potential for nuclear war. Throughout this book, Kissinger argues that a deeper understanding of the strategic dynamics of nuclear weapons is essential to the development of effective foreign policy. He contends that a careful consideration of the risks and benefits of nuclear weapons is essential for policymakers to make informed decisions that promote peace and security. With its seminal analysis and penetrating insights, Nuclear Weapons and Foreign Policy is an essential read for anyone interested in the intersection of nuclear weapons and international relations. It is a valuable resource for scholars, students, policymakers, and anyone seeking to deepen their understanding of this critical issue.

**containment world history definition: The Cold War** John Lewis Gaddis, 2006-12-26 "Outstanding . . . The most accessible distillation of that conflict yet written." —The Boston Globe "Energetically written and lucid, it makes an ideal introduction to the subject." —The New York Times The "dean of Cold War historians" (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly

opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, *The Cold War* stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of *On Grand Strategy*.

**containment world history definition:** NSC-68 forging the strategy of containment ,

**containment world history definition:** **The Cambridge Descartes Lexicon** Lawrence Nolan, 2015-01-01 The Cambridge Descartes Lexicon is the definitive reference source on René Descartes, 'the father of modern philosophy' and arguably among the most important philosophers of all time. Examining the full range of Descartes' achievements and legacy, it includes 256 in-depth entries that explain key concepts relating to his thought. Cumulatively they uncover interpretative disputes, trace his influences, and explain how his work was received by critics and developed by followers. There are entries on topics such as certainty, cogito ergo sum, doubt, dualism, free will, God, geometry, happiness, human being, knowledge, Meditations on First Philosophy, mind, passion, physics, and virtue, which are written by the largest and most distinguished team of Cartesian scholars ever assembled for a collaborative research project - 92 contributors from ten countries.

**containment world history definition:** *History for the IB Diploma Paper 2: The Cold War* Allan Todd, 2015-07-30 Comprehensive second editions of *History for the IB Diploma Paper 2*, revised for first teaching in 2015. This coursebook covers Paper 2, World History Topic 12: The Cold War: Superpower Tensions and Rivalries (20th century) of the History for the IB Diploma syllabus for first assessment in 2017. Tailored to the requirements of the IB syllabus and written by experienced IB History examiners and teachers, it offers authoritative and engaging guidance through the following detailed studies of leaders and crises from around the world: Truman, Khrushchev, Gorbachev, Castro, and Reagan; and the Cuban Missile Crisis, the Korean War, the Prague spring, and the Soviet invasion of Afghanistan.

**containment world history definition:** **Encyclopedia of Crisis Management** K. Bradley Penuel, Matt Statler, Ryan Hagen, 2013-03 From general theories and concepts exploring the meaning and causes of crisis to practical strategies and techniques relevant to crises of specific types, crisis management is thoroughly explored. Features & Benefits: @\* A collection of 385 signed entries are organized in A-to-Z fashion in 2 volumes available in both print and electronic formats.@\* Entries conclude with Cross-References and Further Readings to guide students to in-depth resources.@\* Selected entries feature boxed case studies, providing students with lessons learned in how various crises were successfully or unsuccessfully managed and why.@\* Although organized A-to-Z, a thematic Reader's Guide in the front matter groups related entries by broad areas (e.g., Agencies & Organizations, Theories & Techniques, Economic Crises, etc.).@\* Also in the front matter, a Chronology provides students with historical perspective on the development of crisis management as a discrete field of study.@\* The work concludes with a comprehensive Index, which-in the electronic version-combines with the Reader's Guide and Cross-References to provide thorough search-and-browse capabilities.@\* A template for an All-Hazards Preparedness Plan is provided the backmatter; the electronic version of this allows students to explore customized response plans for crises of various sorts.@\* Appendices also include a Resource Guide to classic books, journals, and internet resources in the field, a Glossary, and a vetted list of crisis management-related degree programs, crisis management conferences, etc.

**containment world history definition:** **Covert Regime Change** Lindsey A. O'Rourke, 2018-12-15 O'Rourke's book offers a onestop shop for understanding foreignimposed regime change. *Covert Regime Change* is an impressive book and required reading for anyone interested in understanding hidden power in world politics.— Political Science Quarterly States seldom resort to war to overthrow their adversaries. They are more likely to attempt to covertly change the opposing regime, by assassinating a foreign leader, sponsoring a coup d'état, meddling in a democratic election, or secretly aiding foreign dissident groups. In *Covert Regime Change*, Lindsey A. O'Rourke

shows us how states really act when trying to overthrow another state. She argues that conventional focus on overt cases misses the basic causes of regime change. O'Rourke provides substantive evidence of types of security interests that drive states to intervene. Offensive operations aim to overthrow a current military rival or break up a rival alliance. Preventive operations seek to stop a state from taking certain actions, such as joining a rival alliance, that may make them a future security threat. Hegemonic operations try to maintain a hierarchical relationship between the intervening state and the target government. Despite the prevalence of covert attempts at regime change, most operations fail to remain covert and spark blowback in unanticipated ways. Covert Regime Change assembles an original dataset of all American regime change operations during the Cold War. This fund of information shows the United States was ten times more likely to try covert rather than overt regime change during the Cold War. Her dataset allows O'Rourke to address three foundational questions: What motivates states to attempt foreign regime change? Why do states prefer to conduct these operations covertly rather than overtly? How successful are such missions in achieving their foreign policy goals?

**containment world history definition:** Remembering George Kennan Melvyn P. Leffler, 2006 George F. Kennan, the father of containment, was a rather obscure and frustrated foreign service officer at the U.S. embassy in Moscow when his Long Telegram of February 1946 gained the attention of policymakers in Washington and transformed his career. What is Kennan's legacy and the implications of his thinking for the contemporary era? Is it possible to reconcile Kennan's legacy with the newfound emphasis on a democratic peace?

**containment world history definition:** The Long Game Rush Doshi, 2021-06-11 For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In The Long Game, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential strategies of displacement. Beginning in the 1980s, China focused for two decades on hiding capabilities and biding time. After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of actively accomplishing something. Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase great changes unseen in century. After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

**containment world history definition:** The Fifteen Weeks (February 21 - June 5, 1947) Joseph M. Jones, 2018-12-01 A DRAMATIC AND REVEALING ACCOUNT, FROM INSIDE THE GOVERNMENT, OF THE MOMENTOUS DAYS IN WHICH AMERICA ASSUMED THE RESPONSIBILITY OF WORLD LEADERSHIP. First published in 1955, Joseph M. Jones' memoirs The Fifteen Weeks chronicle his role in the development of the Truman Doctrine and the Marshall Plan. "The fifteen weeks which form the title and subject of this book comprise the period in 1947 when the United States stepped out irrevocably and wholeheartedly as leader upon the world stage.... "The greatness of a nation, like the greatness of an individual, is in the last analysis a mystery. We do not know why at one time immense exertions and far-reaching vision are more prevalent than at others. Yet to look within, to account for the obvious factors in the situation is highly useful. That function is performed in a book which for readability and for responsible narration would be hard to surpass."—August Heckscher in the New York Herald Tribune.

**containment world history definition: We Now Know** John Lewis Gaddis, 1997 One of America's leading historians offers the first major history of the Cold War. Packed with new information drawn from previously unavailable sources, the book offers major reassessments of Stalin, Mao, Khrushchev, Kennedy, Eisenhower, and Truman.

**containment world history definition: *The Future of Public Health*** Committee for the Study of the Future of Public Health, Division of Health Care Services, Institute of Medicine, 1988-01-15 The Nation has lost sight of its public health goals and has allowed the system of public health to fall into 'disarray', from *The Future of Public Health*. This startling book contains proposals for ensuring that public health service programs are efficient and effective enough to deal not only with the topics of today, but also with those of tomorrow. In addition, the authors make recommendations for core functions in public health assessment, policy development, and service assurances, and identify the level of government--federal, state, and local--at which these functions would best be handled.

**containment world history definition: *Conflict, Culture, and History*** Stephen J. Blank, Karl P. Magyar, Al Et Al, 2002-06-01 Five specialists examine the historical relationship of culture and conflict in various regional societies. The authors use Adda B. Bozeman's theories on conflict and culture as the basis for their analyses of the causes, nature, and conduct of war and conflict in the Soviet Union, the Middle East, Sinic Asia (China, Japan, and Vietnam), Latin America, and Africa. Drs. Blank, Lawrence Grinter, Karl P. Magyar, Lewis B. Ware, and Bynum E. Weathers conclude that non-Western cultures and societies do not reject war but look at violence and conflict as a normal and legitimate aspect of sociopolitical behavior.

**containment world history definition: *The Evolution of U.S. Foreign Policy*** Willis M. Smyser, 1960

**containment world history definition: *The Meaning of Detente*** United States. Department of State, 1974

**containment world history definition: *Making Strategy*** Dennis M. Drew, Donald M. Snow, 2002-04 National security strategy is a vast subject involving a daunting array of interrelated subelements woven in intricate, sometimes vague, and ever-changing patterns. Its processes are often irregular and confusing and are always based on difficult decisions laden with serious risks. In short, it is a subject understood by few and confusing to most. It is, at the same time, a subject of overwhelming importance to the fate of the United States and civilization itself. Col. Dennis M. Drew and Dr. Donald M. Snow have done a considerable service by drawing together many of the diverse threads of national security strategy into a coherent whole. They consider political and military strategy elements as part of a larger decisionmaking process influenced by economic, technological, cultural, and historical factors. I know of no other recent volume that addresses the entire national security milieu in such a logical manner and yet also manages to address current concerns so thoroughly. It is equally remarkable that they have addressed so many contentious problems in such an evenhanded manner. Although the title suggests that this is an introductory volume - and it is - I am convinced that experienced practitioners in the field of national security strategy would benefit greatly from a close examination of this excellent book. Sidney J. Wise Colonel, United States Air Force Commander, Center for Aerospace Doctrine, Research and Education

**containment world history definition: *The Sources of Soviet Conduct*** George Frost Kennan, 1947

## **Containment World History Definition Introduction**

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Containment World History Definition PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Containment World History Definition PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Containment World History Definition free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.
