court ordered substance abuse assessment: Broadening the Base of Treatment for Alcohol Problems Institute of Medicine, Committee on Treatment of Alcohol Problems, 1990-02-01 In this congressionally mandated study, an expert committee of the Institute of Medicine takes a close look at where treatment for people with alcohol problems seems to be headed, and provides its best advice on how to get there. Careful consideration is given to how the creative growth of treatment can best be encouraged while keeping costs within reasonable limits. Particular attention is devoted to the importance of developing therapeutic approaches that are sensitive to the special needs of the many diverse groups represented among those who have developed problems related to their use of man's oldest friend and oldest enemy. This book is the most comprehensive examination of alcohol treatment to date.

court ordered substance abuse assessment: Screening and Assessing Adolescents for Substance Use Disorders Ken C. Winters, 2000 Presents information on identifying, screening, and assessing adolescents who use substances. This report focuses on the most current procedures and instruments for detecting substance abuse among adolescents, conducting comprehensive assessments, and beginning treatment planning. Presents appropriate strategies and guidelines for screening and assessment. Explains legal issues concerning Federal and State confidentiality laws. court ordered substance abuse assessment: Brief Alcohol Screening and Intervention for College Students (BASICS) Linda A. Dimeff, 1999-01-08 This instructive manual presents a pragmatic and clinically proven approach to the prevention and treatment of undergraduate alcohol abuse. The BASICS model is a nonconfrontational, harm reduction approach that helps students reduce their alcohol consumption and decrease the behavioral and health risks associated with heavy drinking. Including numerous reproducible handouts and assessment forms, the book takes readers step-by-step through conducting BASICS assessment and feedback sessions. Special topics covered include the use of DSM-IV criteria to evaluate alcohol abuse, ways to counter student defensiveness about drinking, and obtaining additional treatment for students with severe alcohol dependency. court ordered substance abuse assessment: TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019) U.S. Department of Health and Human Services, 2019-11-19 Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person-centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.

court ordered substance abuse assessment: Mental Health Screening and Assessment in Juvenile Justice Thomas Grisso, Gina Vincent, Daniel Seagrave, 2005-02-24 It is well known that many children and adolescents entering the juvenile justice system suffer from serious mental disorders. Yet until now, few resources have been available to help mental health and juvenile justice professionals accurately identify the mental health needs of the youths in their care. Filling a crucial gap, this volume offers a practical primer on screening and assessment together with in-depth reviews of over 20 widely used instruments. Comprehensive and timely, it brings together leading experts to provide authoritative guidance in this challenging area of clinical practice. Grounded in extensive research and real world practical experience, this is an indispensable reference for clinical and forensic psychologists, social workers, and psychiatrists, as well as juvenile justice administrators and others who work with youths in the justice system. An informative resource for students, it is an ideal supplemental text for graduate-level courses.

court ordered substance abuse assessment: How to Change the Program to Meet Their Needs Donald Adams, 2011-04 The intent of this book is to prove that through Christ-centered relationships, God's love remains effective to the pulling down of strongholds; and with truth ministered in love, one can love another to submission to fulfill God's plan and will., thus, thwarting

Satan's ill-conceived plan of 'arrested development' toward the end to 'steal, kill, and destroy. Readers will gain valuable insight into behaviors demonstrated by boys growing up in today's times and practical strategies that could aid in assisting a boy change his program to meet his needs. Donald Adams, Jr., is an ordained Elder and gifted teacher in the Christian faith. He studied and earned his Bachelor's degree in Biblical Studies and Church Administration at St. Martin's College and Seminary in Milwaukee, Wisconsin and is currently working towards his Masters in Education degree through National-Louis University. He is employed by Governors State University and works at the DCFS Office of Training and Professional Development as a Statewide Training Specialist in Chicago. He is a son, brother, father, mentor, and servant with a God-given vision and heart for defending the poor and the fatherless. In addition to fathering and providing for his own children, he is a licensed foster/adoptive caregiver for ages 0-21 years, specializing in caring for preteen and teen males. He credits and expresses his gratitude to Almighty God for the gifts and talents that edify the Body and gives glory to Him.

court ordered substance abuse assessment: *Assessment and Treatment of the DWI Offender* Charles Wuth, Alan A Cavaiola, 2016-01-28 Work more effectively with DWI offenders! This valuable book provides current information on the psychological, social-demographic, and psychiatric characteristics of DWI offenders. It also will provide you with up-to-date assessment strategies that can be employed with offenders, who characteristically are resistant to such assessment. Until now, books written on this subject have focused purely on research that has been done with offenders. This book, however, provides both theoretical and applied strategies for working with this very difficult population in clinical/treatment settings. *Assessment and Treatment of the DWI Offender* provides practical treatment approaches such that will help you manage client resistance and incorporate family members and significant others into the treatment process to more effectively treat offenders. *Assessment and Treatment of the DWI Offender* examines: the important variables that separate DWI offenders from alcoholics in general, as well as the "normal" population patterns of drinking behavior among offenders the magnitude of the DWI problem in the United States the history of the DWI countermeasures movement prevention and public education organizations such as SADD, MADD, the Partners in Progress program, the College Binge Drinking Initiative, and more enforcement techniques like breath testing, standardized field sobriety tests, on-site drug detection devices, etc. problems with the tools and techniques that are currently being used to address this issue interviewing techniques that work with DWI offenders more! Intended primarily for counselors, social workers, psychologists, and other professionals who work with DWI offenders and packed with helpful and easy-to-read statistical charts and tables, this book is also essential for graduate students in psychology, social work, chemical dependency, or any of the helping professions.

court ordered substance abuse assessment: *Evaluation Research in Child Welfare* Katharine Briar-Lawson, Joan Levy Zlotnik, 2018-10-24 Since the 1980s, child welfare agencies and social work programs in more than 40 states have come together to address recruitment and retention issues by preparing social work students for child welfare practice—and to enhance the delivery of child welfare services. This book documents the outcomes of these partnerships to help you assess their value and sustainability! *Evaluation Research in Child Welfare: Improving Outcomes Through University-Public Agency Partnerships* is a critical examination of the diverse outcomes—and strategies for assessing them—of university/public child welfare agency partnerships designed to prepare social work students for public child welfare practice. This informative book addresses outcomes of these specialized training efforts which were supported by federal Title IV-E and Title IV-B Section 426 funds. Special attention is paid to programs addressing diversity and cultural

competence through staff development. The book follows the process of tracking the career paths of students in several states (large and small, rural and urban), as well as cross-state collaborations that include university, agency, consumer, and student partnerships. From the Editors: "Rising drug problems such as crack and cocaine addiction, along with co-occurring challenges such as poverty, domestic violence, and mental health issues, have helped to reinforce the need to have the most effective services delivered by the most well-prepared staff. Moreover, such challenges compel the most relevant, scientifically based approaches, requiring a closer connection of public child welfare systems to social work education programs and related academic disciplines. The articles featured in this book serve as progress markers for this re-professionalization initiative. They constitute snapshots of some of the current progress in workforce development, including social work based education, training, and capacity building in public child welfare. They also reflect social work/public child welfare partnerships and the lessons that are being learned when the research, educational, and service resources of schools of social work are harnessed to build a better trained work force that can provide improved services." In this informative book, you'll find a national overview of historical efforts to promote professional social work practice in child welfare, as well as examinations of: special challenges presented by privatized systems curricula and agencies training opportunities that grow from research partnerships the importance and impact of racial and ethnic diversity for future social workers the cultural competency needs of BSW and MSW students the differing cultural perspectives of universities and agencies—which must be bridged to create successful partnerships the benefits of these partnerships in terms of outcomes for students, clients, agencies, and social work education programs

court ordered substance abuse assessment: Facing Addiction in America Office of the Surgeon General, U.s. Department of Health and Human Services, 2017-08-15 All across the United States, individuals, families, communities, and health care systems are struggling to cope with substance use, misuse, and substance use disorders. Substance misuse and substance use disorders have devastating effects, disrupt the future plans of too many young people, and all too often, end lives prematurely and tragically. Substance misuse is a major public health challenge and a priority for our nation to address. The effects of substance use are cumulative and costly for our society, placing burdens on workplaces, the health care system, families, states, and communities. The Report discusses opportunities to bring substance use disorder treatment and mainstream health care systems into alignment so that they can address a person's overall health, rather than a substance misuse or a physical health condition alone or in isolation. It also provides suggestions and recommendations for action that everyone-individuals, families, community leaders, law enforcement, health care professionals, policymakers, and researchers-can take to prevent substance misuse and reduce its consequences.

court ordered substance abuse assessment: *Forensic Mental Health Assessment* Kirk Heilbrun, David DeMatteo, Stephanie Brooks Holliday, Casey LaDuke, 2014-06-09 Forensic mental health assessment (FMHA) continues to develop and expand as a specialization. Since the publication of the First Edition of *Forensic Mental Health Assessment: A Casebook* over a decade ago, there have been a number of significant changes in the applicable law, ethics, science, and practice that have shaped the conceptual and empirical underpinnings of FMHA. The Second Edition of *Forensic Mental Health Assessment* is thoroughly updated in light of the developments and changes in the field, while still keeping the unique structure of presenting cases, detailed reports, and specific teaching points on a wide range of topics. Unlike anything else in the literature, it provides genuine (although disguised) case material, so trainees as well as legal and mental health professionals can review how high-quality forensic evaluation reports are written; it features contributions from leading experts in forensic psychology and psychiatry, providing samples of work in their particular areas of specialization; and it discusses case material in the larger context of broad foundational principles and specific teaching points, making it a valuable resource for teaching, training, and continuing education. Now featuring 50 real-world cases, this new edition covers topics including criminal responsibility, sexual offending risk evaluation, federal sentencing, capital sentencing, capacity to consent to treatment, personal injury, harassment and discrimination, guardianship, juvenile commitment, transfer and decertification, response style, expert testimony, evaluations in a military context, and many more. It will be invaluable for anyone involved in assessments for the courts, including psychologists, psychiatrists, social workers, and attorneys, as well as for FMHA courses.
