crawford county humane society photos: *Why We Drive* Matthew B. Crawford, 2020-06-09 A brilliant and defiant celebration of driving as a unique pathway of human freedom, by one of the most influential thinkers of our time (Sunday Times) *Why We Drive* weaves philosophers, thinkers, and scientific research with shade-tree mechanics and racers to defend our right to independence, making the case that freedom of motion is essential to who we are as a species. ... We hope you'll read it. —Road & Track Once we were drivers, the open road alive with autonomy, adventure, danger, trust, and speed. Today we are as likely to be in the back seat of an Uber as behind the wheel ourselves. Tech giants are hurling us toward a shiny, happy “self-driving” future, selling utopia but equally keen to advertise to a captive audience strapped into another expensive device. Are we destined, then, to become passengers, not drivers? *Why We Drive* reveals that much more may be at stake than we might think. Ten years ago, in the New York Times-bestselling *Shop Class as Soulcraft*, philosopher-mechanic Matthew B. Crawford—a University of Chicago PhD who owned his own motorcycle shop—made a revolutionary case for manual labor, one that ran headlong against the pretensions of white-collar office work. Now, using driving as a window through which to view the broader changes wrought by technology on all aspects of contemporary life, Crawford investigates the driver's seat as one of the few remaining domains of skill, exploration, play—and freedom. Blending philosophy and hands-on storytelling, Crawford grounds the narrative in his own experience in the garage and behind the wheel, recounting his decade-long restoration of a vintage Volkswagen as well as his journeys to thriving automotive subcultures across the country. Crawford leads us on an irreverent but deeply considered inquiry into the power of faceless bureaucracies, the importance of questioning mindless rules, and the battle for democratic self-determination against the surveillance capitalists. A meditation on the competence of ordinary people, *Why We Drive* explores the genius of our everyday practices on the road, the rewards of “folk engineering,” and the existential value of occasionally being scared shitless. Witty and ingenious throughout, *Why We Drive* is a rebellious and daring celebration of the irrepressible human spirit.

crawford county humane society photos: *Hoosiers and the American Story* Madison, James H., Sandweiss, Lee Ann, 2014-10 A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

crawford county humane society photos: **Off the Edge** Kelly Weill, 2022-02-22 “A deep dive into the world of Flat Earth conspiracy theorists . . . that brilliantly reveals how people fall into illogical beliefs, reject reason, destroy relationships, and connect with a broad range of conspiracy

theories in the social media age. Beautiful, probing, and often empathetic . . . An insightful, human look at what fuels conspiracy theories.” —Science Since 2015, there has been a spectacular boom in a centuries-old delusion: that the earth is flat. More and more people believe that we all live on a pancake-shaped planet, capped by a solid dome and ringed by an impossible wall of ice. How? Why? In *Off the Edge*, journalist Kelly Weill draws a direct line from today’s conspiratorial moment, brimming not just with Flat Earthers but also anti-vaxxers and QAnon followers, back to the early days of Flat Earth theory in the 1830s. We learn the natural impulses behind these beliefs: when faced with a complicated world out of our control, humans have always sought patterns to explain the inexplicable. This psychology doesn’t change. But with the dawn of the twenty-first century, something else has shifted. Powered by Facebook and YouTube algorithms, the Flat Earth movement is growing. At once a definitive history of the movement and an essential look at its unbelievable present, *Off the Edge* introduces us to a cast of larger-than-life characters. We meet historical figures like the nineteenth-century grifter who first popularized the theory, as well as the many modern-day Flat Earthers Weill herself gets to know, from moms on vacation to determined creationists to neo-Nazi rappers. We discover what, and who, converts people to Flat Earth belief, and what happens inside the rabbit hole. And we even meet a man determined to fly into space in a homemade rocket-powered balloon—whose tragic death is as senseless and absurd as the theory he sets out to prove. In this incisive and powerful story about belief, Kelly Weill explores how we arrived at this moment of polarized realities and explains what needs to happen so that we might all return to the same spinning globe.

crawford county humane society photos: *The Law Is a White Dog - How Legal Rituals Make and Unmake Persons* Colin Dayan, 2013-03-03 A fascinating account of how the law determines or dismantles identity and personhood Abused dogs, prisoners tortured in Guantánamo and supermax facilities, or slaves killed by the state—all are deprived of personhood through legal acts. Such deprivations have recurred throughout history, and the law sustains these terrors and banishments even as it upholds the civil order. Examining such troubling cases, *The Law Is a White Dog* tackles key societal questions: How does the law construct our identities? How do its rules and sanctions make or unmake persons? And how do the supposedly rational claims of the law define marginal entities, both natural and supernatural, including ghosts, dogs, slaves, terrorist suspects, and felons? Reading the language, allusions, and symbols of legal discourse, and bridging distinctions between the human and nonhuman, Colin Dayan looks at how the law disfigures individuals and animals, and how slavery, punishment, and torture create unforeseen effects in our daily lives. Moving seamlessly across genres and disciplines, Dayan considers legal practices and spiritual beliefs from medieval England, the North American colonies, and the Caribbean that have survived in our legal discourse, and she explores the civil deaths of felons and slaves through lawful repression. Tracing the legacy of slavery in the United States in the structures of the contemporary American prison system and in the administrative detention of ghostly supermax facilities, she also demonstrates how contemporary jurisprudence regarding cruel and unusual punishment prepared the way for abuses in Abu Ghraib and Guantánamo. Using conventional historical and legal sources to answer unconventional questions, *The Law Is a White Dog* illuminates stark truths about civil society's ability to marginalize, exclude, and dehumanize.

crawford county humane society photos: *The Cat Who Cried for Help* Nicholas Dodman, 1999-02-02 In this groundbreaking book, Dr. Nicholas Dodman does for feline psychology what he did for canines in his widely acclaimed *The Dog Who Loved Too Much*. Here he reveals the

fascinating, and often frustrating, mind of one of our most popular--and certainly most independent--animal companions, and shows how we can coexist peacefully with even the stubbornest of cats. What do you do about a cat determined to tear your sofa to shreds? Or one who gorges himself on your best running shoes . . . or attacks anyone who dares to open the refrigerator door? Drawing on remarkable real-life stories from his practice at the prestigious Tufts University School of Veterinary Medicine, Dr. Dodman shares the unique, compassionate, dramatically successful treatment programs that have given problem cats a new lease on life . . . and their perplexed owners long-term solutions to even the most intractable disorders. As any cat owner knows, changing a cat's behavior can seem like an impossible task. But contrary to popular belief, cats can be trained and cured of irritating habits and undesirable behaviors. The Cat Who Cried for Help shows how minor adjustments in diet, exercise regimen, and environment can effect dramatic breakthroughs in resolving almost any feline problem. From cat panic attacks to eating disorders, from litterbox aversion to depression and a wide range of feline phobias, Dr. Dodman has successfully treated and resolved these and many other heretofore untreatable behaviors. Inside, you'll meet Ashley, the boss-cat who literally bites the hand that feeds him; Jonathan, the binge-eater; Rubles, the Abyssinian Jekyll and Hyde, pussycat one minute, man-eating tiger the next; and Thomas, the cat who cried for help--a little too loudly. Dr. Dodman's techniques are based on the most up-to-date research in pharmacology and feline behaviorism. Yet the primary objective of his treatments is to respect and protect the qualities of independence and dignity fundamental to a cat's nature. Including descriptions of symptoms, treatment options, and tips on prevention, The Cat Who Cried for Help provides everything you need to know to ensure both you and your feline friend a long, happy, and healthy relationship. If you've ever wanted to better understand the nature of this mysterious, enigmatic, and fascinating creature, Dr. Dodman's book provides a penetrating look into the intriguing and intricate world of the cat in your life.

President's Commission on Law Enforcement and Administration of Justice, 1967 This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

Said, 2012-10-24 A landmark work from the author of *Orientalism* that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched from Australia to the West Indies, Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida*. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, *Culture and Imperialism* reopens the dialogue between literature and the life of its time.

crawford county humane society photos: The Age of Entitlement Christopher Caldwell, 2021-01-05 A major American intellectual and "one of the right's most gifted and astute journalists" (*The New York Times Book Review*) makes the historical case that the reforms of the 1960s, reforms intended to make the nation more just and humane, left many Americans feeling alienated, despised, misled—and ready to put an adventurer in the White House. Christopher Caldwell has spent years studying the liberal uprising of the 1960s and its unforeseen consequences and his conclusion is this: even the reforms that Americans love best have come with costs that are staggeringly high—in wealth, freedom, and social stability—and that have been spread unevenly among classes and generations. Caldwell reveals the real political turning points of the past half-century, taking you on a roller-coaster ride through *Playboy* magazine, affirmative action, CB radio, leveraged buyouts, iPhones, Oxycotin, Black Lives Matter, and internet cookies. In doing so, he shows that attempts to redress the injustices of the past have left Americans living under two different ideas of what it means to play by the rules. Essential, timely, hard to put down, *The Age of Entitlement* "is an eloquent and bracing book, full of insight" (*New York magazine*) about how the reforms of the past fifty years gave the country two incompatible political systems—and drove it toward conflict.

crawford county humane society photos: The Stolen Year Anya Kamenetz, 2022-08-23 An NPR education reporter shows how the pandemic disrupted children's lives—and how our country has nearly always failed to put our children first. The onset of COVID broke a 150-year social contract between America and its children. Tens of millions of students lost what little support they had from the government—not just school but food, heat, and physical and emotional safety. The cost was enormous. But this crisis began much earlier than 2020. In *The Stolen Year*, Anya Kamenetz exposes a long-running indifference to the plight of children and families in American life and calls for a reckoning. She follows families across the country as they live through the pandemic, facing loss and resilience: a boy with autism in San Francisco who gains a foster brother and a Hispanic family in Texas that loses a member to COVID, and finds solace when they need it most. Kamenetz also recounts the history that brought us to this point: how we thrust children and caregivers into poverty, how we over-police families of color, how we rely on mothers instead of infrastructure. And how our government, in failing to support our children through this tumultuous time, has stolen years of their lives.

crawford county humane society photos: Public Health Communication Interventions Nurit Guttman, 2000-04-15 The ethical dimensions of health communicators' interventions and campaigns are brought into question in this thought-provoking book. Examining the efforts to effect behavior change, the author questions how far health communication can and should go in changing people's values. The author broadens the current analysis of interventions and presents conceptual frameworks that help identify values and justifications that are embedded in health communication goals, strategies, and evaluation criteria. This critical approach helps explain how and why choices are made in design and implementation, and provides constructs and frameworks to examine them. It also widens the criteria for program evaluation and policymaking, and provides practitioners, planners, policy-makers, researchers, and students with practice-oriented questions.
