criminal history records check california: *The Eternal Criminal Record* James B. Jacobs, 2015-02-09 For over sixty million Americans, possessing a criminal record overshadows everything else about their public identity. A rap sheet, or even a court appearance or background report that reveals a run-in with the law, can have fateful consequences for a person's interactions with just about everyone else. The Eternal Criminal Record makes transparent a pervasive system of police databases and identity screening that has become a routine feature of American life. The United States is unique in making criminal information easy to obtain by employers, landlords, neighbors, even cyberstalkers. Its nationally integrated rap-sheet system is second to none as an effective law enforcement tool, but it has also facilitated the transfer of ever more sensitive information into the public domain. While there are good reasons for a person's criminal past to be public knowledge, records of arrests that fail to result in convictions are of questionable benefit. Simply by placing someone under arrest, a police officer has the power to tag a person with a legal history that effectively incriminates him or her for life. In James Jacobs's view, law-abiding citizens have a right to know when individuals in their community or workplace represent a potential threat. But convicted persons have rights, too. Jacobs closely examines the problems created by erroneous record keeping, critiques the way the records of individuals who go years without a new conviction are expunged, and proposes strategies for eliminating discrimination based on criminal history, such as certifying the records of those who have demonstrated their rehabilitation.

Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander's unforgettable argument that we have not ended racial caste in America; we have merely redesigned it. As the Birmingham News proclaimed, it is undoubtedly the most important book published in this century about the U.S. Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

criminal history records check california: *Women Exiting Prison* Bree Carlton, Marie Segrave, 2013-05-02 Women's incarceration is on the rise globally and this has significant intergenerational, economic and humanitarian costs for communities across the world. While there have been efforts to implement reform, particularly in countries such as Canada, UK, US and Australia, the growing evidence suggests women's prisons and the support structures surrounding them are in crisis. This collection of critical essays presents groundbreaking research on women's post-imprisonment policy, practice and experiences. It is the first collection to offer international perspectives on gender, criminalisation, the effects of imprisonment and women-centred approaches

to the short and long-term support of women exiting prison. It offers cutting-edge insights into contemporary policy developments and women's experiences across the US, the UK, Australia, Canada and Northern Ireland. The collection makes two important contributions. First, it marks a departure from an instrumental and individual focus on 'what works' to reduce women's offending and re-offending behaviour - a prevailing approach within competing collections focused on post-release issues. Second, it presents critical, original research with robust empirical foundations to revive feminist criminological engagement around gender, imprisonment, and most critically, post-release management, support and survival. The collection will appeal to academics and community-based advocates, activists, lawyers and practitioners engaged in advocacy and service provision for imprisoned women. It is also an important and unique analysis for undergraduate and postgraduate students studying criminological and social science courses particularly those related to gender and crime, imprisonment and correctional policy and qualitative research methods.
