

Critical Time Intervention Case Management Model

critical time intervention case management model: Critical Time Intervention Daniel B. Herman, Ezra S. Susser, Professor of Epidemiology and Psychiatry Ezra S Susser, Director of CTI Global Network Center for the Advancement of Critical Time Intervention (Cacti) Sarah A Conover, Sarah Conover, 2024-10-24 This book is the first to fully describe critical time intervention (CTI), a time-limited, evidence-based model of care that provides direct emotional and practical assistance and strengthens individuals' ties to their community and support systems during critical periods of transition in their lives. The model is widely applied in the US and elsewhere by case managers, social workers, and others seeking to help vulnerable people--including those who are homeless, those with severe mental illness, and others--re-establish themselves in the community with access to needed supports.

critical time intervention case management model: *The Psychological Birth Of The Human Infant Symbiosis And Individuation* Margaret S. Mahler, Fred Pine, Anni Bergman, 2008-08-06 The pioneering contribution to infant psychology that gave us separation and individuation documents with standard-setting care the intrapsychic process of a child's emergence from symbiotic fusion with the mother toward affirmation of his own psychological birth. Available for the first time in paperback to a new generation of students and clinicians on the twenty-fifth anniversary of its original publication.

critical time intervention case management model: *The SAFER-R Model* George Everly, Jr., 2017-04 Psychological Crisis Intervention: The SAFER-R Model is designed to provide the reader with a simple set of guidelines for the provision of psychological first aid (PFA). The model of psychological first aid (PFA) for individuals presented in this volume is the SAFER-R model developed by the authors. Arguably it is the most widely used tactical model of crisis intervention in the world with roughly 1 million individuals trained in its operational and derivative guidelines. This model of PFA is not a therapy model nor a substitute for therapy. Rather it is designed to help crisis interventionists stabilize and mitigate acute crisis reactions in individuals, as opposed to groups. Guidelines for triage and referrals are also provided. Before plunging into the step-by-step guidelines, a brief history and terminological framework is provided. Lastly, recommendations for addressing specific psychological challenges (suicidal ideation, resistance to seeking professional psychological support, and depression) are provided.

critical time intervention case management model: Permanent Supportive Housing National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Policy and Global Affairs, Science and Technology for Sustainability Program, Committee on an Evaluation of Permanent Supportive Housing Programs for Homeless Individuals, 2018-08-11 Chronic homelessness is a highly complex social problem of national importance. The problem has elicited a variety of societal and public policy responses over the years, concomitant with fluctuations in the economy and changes in the demographics of and attitudes toward poor and disenfranchised citizens. In recent decades, federal agencies, nonprofit organizations, and the philanthropic community have worked hard to develop and implement programs to solve the challenges of homelessness, and progress has been made. However, much more remains to be done. Importantly, the results of various efforts, and especially the efforts to reduce homelessness among veterans in recent years, have shown that the problem of homelessness can be successfully addressed. Although a number of programs have been developed to meet the needs of persons experiencing homelessness, this report focuses on one particular type of intervention: permanent supportive housing (PSH). Permanent Supportive Housing focuses on the

impact of PSH on health care outcomes and its cost-effectiveness. The report also addresses policy and program barriers that affect the ability to bring the PSH and other housing models to scale to address housing and health care needs.

critical time intervention case management model: *In the Midst of Plenty* Marybeth Shinn, Jill Khadduri, 2020-01-24 Foreword by Nan Roman, President and CEO of the National Alliance to End Homelessness This book explains how to end the U.S. homelessness crisis by bringing together the best scholarship on the subject and sharing solutions that both local communities and national policy-makers can apply now. *In the Midst of Plenty* shifts understanding of homelessness away from individual disability to larger contexts of poverty, income inequality, housing affordability, and social exclusion. Homelessness experts Shinn and Khadduri provide guidance on how to end homelessness for people who experience it and how to prevent so many people from reaching the point where they have no alternative to sleeping on the street or in emergency shelters. The authors show that we know how to end homelessness—if we devote the necessary resources to doing so. *In the Midst of Plenty: Homelessness and What to Do About It* is an excellent resource for policy-makers, professionals in the homeless services system, and anyone else who wants to end homelessness. It also can serve as a text in undergraduate or masters courses in public policy, sociology, psychology, social work, urban studies, or housing policy. The knowledgeable and thoughtful authors of this book—two brilliant women who know as much as anyone in the country about the nature of homelessness and its solutions—have done a great service by taking us on a journey through the history of homelessness, how our responses have changed, and how we can end it. —Nan Roman, President and CEO National Alliance to End Homelessness. Shinn and Khadduri's new book is a thorough yet concise examination of what we know about the nature and causes of homelessness, and the crucial lessons learned. This critically important work provides a roadmap to restoring basic housing and income security as viable policy options, in the face of our daunting inequality divide that otherwise threatens millions with destitution and homelessness. —Dennis Culhane, Dana and Andrew Stone Professor of Social Policy, University of Pennsylvania Marybeth Shinn and Jill Khadduri have combined their significant expertise to create an essential guide about the history of modern homelessness and to offer a clear path forward to end this American tragedy. Their policy recommendations on ending homelessness are culled from the best about what we know works. —Barbara Poppe, Executive Director US Interagency Council on Homeless, 2009-2014

critical time intervention case management model: *Handbook of Community Psychiatry* Hunter L. McQuiston, Wesley E. Sowers, Jules M. Ranz, Jacqueline Maus Feldman, 2012-06-05 During the past decade or more, there has been a rapid evolution of mental health services and treatment technologies, shifting psychiatric epidemiology, changes in public behavioral health policy and increased understanding in medicine regarding approaches to clinical work that focus on patient-centeredness. These contemporary issues need to be articulated in a comprehensive format. The American Association of Community Psychiatrists (AACCP), a professional organization internationally recognized as holding the greatest concentration of expertise in the field, has launched a methodical process to create a competency certification in community psychiatry. As a reference for a certification examination, that effort will benefit enormously from a comprehensive handbook on the subject.

critical time intervention case management model: *Behavioral Science & Policy: Volume 4, Issue 1* Steven Patierno, Sim B. Sitkin, 2019-01-29 The success of nearly all public- and private-sector policies hinges on the behavior of individuals, groups, and organizations. Today, such behaviors are better understood than ever, thanks to a growing body of practical behavioral science research. However, policymakers often are unaware of behavioral science findings that may help them craft and execute more effective and efficient policies. The pages of this journal will become a meeting ground: a place where scientists and non-scientists can encounter clearly described behavioral research that can be put into action. By design, the scope of *Behavioral Science & Policy* is broad, with topics spanning health care, financial decisionmaking, energy and the environment, education and culture, justice and ethics, and work place practices. Contributions will be made by

researchers with expertise in psychology, sociology, law, behavioral economics, organization science, decision science, and marketing. The journal is a key offering of the Behavioral Science & Policy Association in partnership with the Brookings Institution. The mission of BSPA is to foster dialog between social scientists, policymakers, and other practitioners in order to promote the application of rigorous empirical behavioral science in ways that serve the public interest. BSPA does not advance a particular agenda or political perspective.

critical time intervention case management model: Practical Strategies and Tools to Promote Treatment Engagement William O'Donohue, Larry James, Cassandra Snipes, 2017-03-08 This practice-building resource examines the psychology behind non-adherence and the importance of building commitment to treatment as the foundation of successful therapy. Coverage starts by illustrating the complex phenomena of non-adherence at different stages of intervention—including mechanisms and situations that may prevent even initial engagement. From there, experts from diverse specialties offer interest-promoting strategies tailored to specific conditions (diabetes, anxiety, depression) and populations (children, dually diagnosed patients), informed by the current knowledge base on treatment effectiveness and recent technological advances. And the editors make patient-centered recommendations for the health and mental health professions to make therapy more accessible and open. Among the topics covered: · Meeting patients where they are: using a stage approach to facilitate engagement. · Use of mindfulness in promoting treatment engagement. · DBT and treatment engagement in the context of highly suicidal complex clients. · Behavioral Problems in children: ADHD and ODD. · Engagement of patients in the self-management of pain. · Engaging trauma survivors in treatment. A breakthrough in the behavioral health delivery services literature, *Practical Strategies and Tools to Promote Treatment Engagement* offers real-world tools, guidelines, and expertise to health psychologists, primary care physicians and nurses, clinical psychologists, and clinical social workers. It is a vivid reminder that patients need not only what's good for them, but also what works for them.

critical time intervention case management model: The Palgrave Handbook of American Mental Health Policy Howard H. Goldman, Richard G. Frank, Joseph P. Morrissey, 2019-05-07 This handbook is the definitive resource for understanding current mental health policy controversies, options, and implementation strategies. It offers a thorough review of major issues in mental health policy to inform the policy-making process, presenting the pros and cons of controversial, significant issues through close analyses of data. Some of the topics covered are the effectiveness of various biomedical and psychosocial interventions, the role of mental illness in violence, and the effectiveness of coercive strategies. The handbook presents cases for conditions in which specialized mental health services are needed and those in which it might be better to deliver mental health treatment in mainstream health and social services settings. It also examines the balance between federal, state, and local authority, and the financing models for delivery of efficient and effective mental health services. It is aimed for an audience of policy-makers, researchers, and informed citizens that can contribute to future policy deliberations.

critical time intervention case management model: *Community Mental Health* Samuel J. Rosenberg, Jessica Rosenberg, 2013-05-07 The first edition of *Community Mental Health* quickly established itself as one of the most comprehensive and timely books about mental health practice in community settings. Readers will find that this new edition is also on the leading edge of the field, providing the most up-to-date research and treatment models in the field. Experts from a wide range of professions – social work, nursing, psychology, psychiatry, public health, sociology, and law – explore the major trends, best practices, and policy issues shaping community mental health services today. Coverage of each topic shifts the focus from management to recovery in the treatment of chronically mentally ill patients. Coverage of organizational and policy issues gives students a head start on mastering the overarching factors that shape their field. This book offers the greatest breadth of coverage available, including hot-button topics like the following: evidence-based treatments neuropsychiatric perspectives Diversity Substance abuse New chapters cover a variety of special populations, which ensures students are prepared to work with a wide

range of issues, including: returning veterans military families and families of the mentally ill people affected by the Great Recession teenagers children the homeless Students preparing to become mental health professionals, practitioners in community mental health settings, and policy planners and advocates engaged in the evaluation and development of programs in the human services will find this text to be an invaluable resource in their training and work. A collection of supplemental resources are available online to benefit both instructors and students. Instructors will find PowerPoint slides and test banks to aid in conducting their courses, and students can access a library of helpful learning activities, suggested readings and resources, and a glossary of important terms. These materials can be accessed at <http://www.routledge-mentalhealth.com/cw/rosenberg>.

critical time intervention case management model: Psychosocial Treatment of Schizophrenia Allen Rubin, David W. Springer, Kathi Trawver, 2011-02-02 Praise for the Clinician's Guide to Evidence-Based Practice Series A major stumbling block to the adoption of evidence-based practice in the real world of clinical practice has been the absence of clinician-friendly guides suitable for learning specific empirically supported treatments. Such guides need to be understandable, free of technical research jargon, infused with clinical expertise, and rich with real-life examples. Rubin and Springer have hit a home run with the Clinician's Guide to Evidence-Based Practice Series, which has all of these characteristics and more. Edward J. Mullen, Willma and Albert Musher Chair Professor, Columbia University State-of-the-art, empirical support for psychosocial treatment of schizophrenia Part of the Clinician's Guide to Evidence-Based Practice Series, Psychosocial Treatment of Schizophrenia provides busy mental health practitioners with detailed, step-by-step guidance for implementing clinical interventions that are supported by the latest scientific evidence. This thorough, yet practical, reference draws on a roster of experts and researchers in the field who have assembled state-of-the-art knowledge into this well-rounded guide. Each chapter serves as a practitioner-focused how-to reference and covers interventions that have the best empirical support for the psychosocial treatment of schizophrenia, including: Cognitive behavioral therapy Assertive community treatment Critical time intervention Motivational interviewing for medication adherence Psychoeducational family groups Illness management and recovery Easy-to-use and accessible in tone, Psychosocial Treatment of Schizophrenia is an indispensable resource for practitioners who would like to implement evidence-based, compassionate, effective interventions in the care of people with schizophrenia.

critical time intervention case management model: Malady of the Mind Jeffrey A. Lieberman, 2024-04-23 This brilliant portrait of schizophrenia-the most malignant and least understood mental illness-by renowned psychiatrist Jeffrey Lieberman, Chair of Columbia's legendary Psychiatry department, interweaves cultural and scientific history with dramatic patient portraits and clinical experiences to impart a revolutionary message of hope: that for the first time in human history, schizophrenia can not just be effectively treated, but even prevented. Of the many myths and misconceptions that have historically obscured our understanding of schizophrenia, the most pernicious is that there is no effective treatment or cure. The reality couldn't be more different: the truth is that today's treatments have the potential to be game-changing-and often lifesaving. In this rigorously researched, deeply compelling biography of schizophrenia, Dr. Jeffrey Lieberman draws on his four-decade career to tell the story of the past, present, and future of this historically dreaded, often disabling illness. From his vantage point at the pinnacle of academic psychiatry, informed by extensive research experience and clinical care of thousands of patients, Dr. Lieberman describes how the complexity of the brain, the checkered history of psychiatric medicine, and centuries of stigma combined with misguided legislation and health care policies have impeded scientific and clinical progress. And yet, there is hope: by offering evidence-based treatments that combine medication with psychosocial services, doctors are now able to effectively treat schizophrenia. Even more auspiciously, early detection and intervention before the onset of psychotic symptoms can-thanks to decades of scientific work-not only suppress symptoms but also effectively prevent the outbreak of this disorder. A must-read for fans of psychological histories and anyone whose life has been affected by schizophrenia, this revelatory work offers a comprehensive

scientific portrait, crucial insights, and, most importantly, hope for those afflicted--

critical time intervention case management model: Mental Health Care Issues in America [2 volumes] Michael Shally-Jensen, 2013-01-07 This two-volume encyclopedia examines the social, cultural, and political dimensions of mental illness in America. Americans are becoming more cognizant of the importance of mental wellness as incidents of bullying, random shootings, and eating disorders pervade our society. This comprehensive resource provides an expansive overview of mental health and illness in the United States, analyzing the current state of the health care system, and objectively examining the therapies and treatment options traditionally recommended by the medical community. *Mental Health Care Issues in America: An Encyclopedia* covers major mental disorders, theories, and treatments; delves into major advances and ongoing controversies in the field; and shares the most current research on the subject in varied disciplines, including ethnic studies, criminal justice, education, and social work. Each entry features a clear definition of the issue along with a brief review of its history. Additionally, the author situates the material within the mental health field, as well as within society in general. Organized alphabetically, topics include advocacy, legal issues, media portrayals of psychological disorders, and homelessness and mental illness.

critical time intervention case management model: Innovations in Interventions to Address Intimate Partner Violence Tod Augusta-Scott, Katreena Scott, Leslie M. Tutty, 2017-04-21 *Innovations in Interventions to Address Intimate Partner Violence: Research and Practice* speaks to what can be done to effectively intervene to end intimate partner violence against women. Including contributions from both researchers and practitioners, chapters describe service innovations across systems in large urban and remote rural contexts, aimed at majority and minority populations, and that utilize a range of theoretical perspectives to understand and promote change in violence and victimization. Reflecting this range, contributions to this volume are organized into five sections: legal responses to domestic violence, intervention with men who have perpetrated domestic violence, responses to women who have experienced domestic violence, restorative approaches to intimate partner violence, and a section on integrating intervention for domestic violence across systems. The book highlights advances in practice which will be of interest to researchers, practitioners, policy makers and students.

critical time intervention case management model: Principles and Practice of Forensic Psychiatry, Third Edition Richard Rosner, Charles Scott, 2017-02-03 The third edition of this award-winning textbook has been revised and thoroughly updated. Building on the success of the previous editions, it continues to address the history and practice of forensic psychiatry, legal regulation of the practice of psychiatry, forensic evaluation and treatment, psychiatry in relation to civil law, criminal law and family law, as well as correctional forensic psychiatry. New chapters address changes in the assessment and treatment of aggression and violence as well as psychological and neuroimaging assessments.

critical time intervention case management model: Case Management, Third Edition Arthur J. Frankel, Sheldon R. Gelman, 2011-07-26 Case managers provide an indispensable service, acting as both experts and liaisons to the wide variety of services, resources, and opportunities available to their clients. The authors use their extensive practice, classroom, and research experience to delineate clearly the steps of the case management process and to address the myriad roles case managers fill in different practice situations. By detailing the various processes and goals of case management and the different populations they help, the authors present a resource that is invaluable not only to social workers, but also to case managers in nursing centers, community mental health facilities, and criminal justice centers. The third edition of this book is updated to reflect the constantly changing nature of the helping professions. New and updated references provide readers with an array of options for pursuing specific aspects of case management. The book is attentive to the evolving needs of a variety of populations, and it now contains a new section on working with members of the military and their families. This edition also contains new information on case management within larger organizations that provide mental health services.

critical time intervention case management model: A Case-based Approach to Emergency Psychiatry Katherine Maloy, 2016 Working in an emergency department as a psychiatrist or mental health clinician requires an ability to gain a patient's rapport, establish a differential diagnosis, assess risk, and make disposition decisions in a fast-paced and potentially chaotic setting. A Case-Based Approach to Emergency Psychiatry, written by psychiatrists who work daily in the emergency setting, will assist the emergency department clinician in learning these skills through vivid, complex cases that illustrate basic principles of assessment, diagnosis, and treatment.

critical time intervention case management model: Psychiatry Allan Tasman, Jerald Kay, Jeffrey A. Lieberman, Michael B. First, Mario Maj, 2011-10-11 Extensively revised and updated this edition reflects the progress and developments in the field. With 127 chapters and over 400 contributors this book is a truly comprehensive exposition of the specialty of psychiatry. Written by well-known and highly regarded experts from around the world, it takes a patient-centered approach making it an indispensable resource for all those involved in the care of patients with psychiatric disorders. For this new edition, the section on the Neuroscientific Foundations of Psychiatry has been completely revised, with a new author team recruited by Section Editors Jonathan Polan and Eric Kandel. The final section, Special Populations and Clinical Settings, features important new chapters on today's most urgent topics, including the homeless, restraint and geriatric psychiatry. Key features include: Coverage of the entire field of psychiatry, from psychoanalysis to pharmacology and brain imaging, including family relations, cultural influence and change, epidemiology, genetics and behavioral medicine Clinical vignettes describing current clinical practice in an attractive design Numerous figures and tables that facilitate learning and comprehension appear throughout the text Clear comparisons of the DSM-IV-TR and ICD-10 criteria for easy understanding in a global context Diagnostic and treatment decision trees to help both the novice and experienced reader The chapter on Cognitive Behavioral Therapies by Edward Friedman, Michael Thase and Jesse Wright is freely available. Please click on Read Excerpt 2 above to read this superb exposition of these important therapies.

critical time intervention case management model: Models of Social Intervention Derling Jose Mendoza Velazco, Iris María Sánchez Azua, Yuliana Betzabé Vélez Ozaeta, Luis Efrén Rúa Sánchez, Josselyn Leonela Muñoz Briones, 2024-10-19 This book addresses several fundamental aspects of social work practice. From a qualitative and exploratory perspective, the book analyses pre-professional practices in the formation of social workers by contrasting the perspectives of students, institutional supervisors and university lecturers. Areas of opportunity in training are identified, such as handling personal and family crises of high conflict, the lack of specialised knowledge according to intervention areas, and limited participation in technical processes. The book proposes strengthening communication, mediation and emotional support skills, as well as incorporating optional courses and specific diplomas to fill these gaps. Methodologically, the book is based on semi-structured interviews and focus groups, allowing a systemic understanding of the educational phenomenon from the voice of the main actors. Together, this work offers an enriching overview of the challenges and opportunities in the practical training of social workers, laying the foundations for improving the quality of these training processes.

critical time intervention case management model: Practical Lessons National Symposium on Homelessness Research, United States. Dept. of Housing and Urban Development, 1999

critical time intervention case management model: Chronic Illness Care Timothy P. Daaleman, Margaret R. Helton, 2023 The second edition of this popular textbook provides a comprehensive overview to chronic illness care, which is the coordinated, comprehensive and sustained response to chronic diseases and conditions by health care providers, formal and informal caregivers, healthcare systems, and community-based resources. This unique resource uses an ecological framework to frame chronic illness care at multiple levels, and includes sections on individual influences, the role of family and community networks, social and environmental determinants, and health policy. The book also orients how chronic care is provided across the

spectrum of health care settings, from home to clinic, from the emergency department to the hospital and from hospitals to residential care facilities. The fully revised and expanded edition of *Chronic Illness Care* describes the operational frameworks and strategies that are needed to meet the care needs of chronically ill patients, including behavioral health, care management, transitions of care, and health information technology. It also addresses the changing workforce needs in health care and the fiscal models and policies that are associated with chronic care. Several new chapters are included in the second edition and reflect the significant changes that have occurred in health care due to the COVID-19 pandemic. Chapters covering vaccinations, virtual care, and care of COVID-19 associated chronic conditions have been added. The revised textbook builds on the first editions content that covered providing care to special population groups, such as children and adolescents, older adults, and adults with intellectual and developmental disabilities, by including care approaches to adults with severe and persistent mental health disorders, the LGBTQ+ community, incarcerated persons, immigrants and refugees, and military veterans. Finally, chapters on important and emerging topics, such as natural language processing and health inequities and structural racism have also been added.

critical time intervention case management model: *Veteran Care and Services* Joaquin Jay Gonzalez III., Mickey P. McGee, Roger L. Kemp, 2020-01-21 The public services and care being provided to our veteran citizens are rapidly changing due to the increasing number of veterans that live in our cities. There are more veteran citizens now living in America than ever before, and the veteran population is becoming ever more diverse. For this reason, cities throughout our nation are expanding their public services in scope and scale, as well as enhancing the quality of existing services. This volume documents these rapid developments in order to help our veteran citizens and supporting communities understand the evolving, dynamic, and innovative services and care that are increasingly available to them.

critical time intervention case management model: *The Praeger Handbook of Community Mental Health Practice* Doreen Maller, Kathy Langsam, Melissa Jerbian Fritchle, 2013-02-20 This expansive, three-volume set addresses the complexities of interconnectivity, therapeutic capacity, and the competencies needed in order to provide sophisticated and integrated community mental health care—both in the United States and within a global community. The *Praeger Handbook of Community Mental Health Practice* provides an essential framework that will serve university educators, students, new practitioners, and experienced therapists alike as they adapt to new approaches to community mental health and respond to changing laws governing mental health provision across state, national, and global levels. Volume one considers the structures, challenges, and expectations of community mental health, familiarizing readers with key issues such as service delivery, funding, and key models of intervention and care. Volume two provides an in-depth exploration of the specific issues of working with populations that participate in and benefit from community mental health services, including addiction, school-based services, juvenile and adult justice, and veteran's services. In Volume three, the contributors address specific needs, considerations, and concerns relevant to working in the global community, including disaster services, trauma, working with children, and providing training in international settings.

critical time intervention case management model: *Mental Illness and Neuropsychiatry of the Homeless: Psychosis, Personality, Drug Abuse, and Other Brain Disorders* João Gama Marques, Joana Henriques-Calado, Martin M. Schumacher, 2024-07-12 Homeless people with mental disorders and neuropsychiatric diseases are ubiquitous, in space and time, in mankind's history. Psychosis, personality disorders, drug abuse, and other brain illnesses represent a true challenge to medicine and society. Homeless people could be, indeed, brought to the attention of marontology, an unborn specialty of medicine, already suggested after the Greek word marontos, which means unwanted. Homelessness is one of the most critically important issues of the contemporaneous world, without a solution in sight, so more research in areas such as psychiatry, psychology, and human neuroscience is needed, for a better understanding of the phenomenon.

critical time intervention case management model: *Homelessness Prevention and*

Intervention in Social Work Heather Larkin, Amanda Aykanian, Calvin L. Streeter, 2019-06-26 This important text provides a comprehensive survey of homelessness in America: its scope and causes, its diverse populations, and the array of responses at the individual, community, and systems levels. Expert contributors explore the links between trauma and homelessness, the cycle of homelessness and health/mental health problems, and barriers preventing people from accessing services. Case studies of effective programs and practices focus on science-based interventions, broad understanding of client needs, and close coordination between systems and agencies. Finally, specialized chapters discuss issues and experiences common to homeless youth and young adults, including housing instability on college campuses and empowerment-based strategies for engaging youth voice in programming . Included in the coverage: Homelessness and health disparities: a health equity lens Affordable housing and housing policy responses to homelessness Street talk: homeless discourses and the politics of service provision Multisectoral collaborations to address homelessness Trauma-informed care in homelessness service settings: challenges and opportunities Incorporating youth voice into services for young people experiencing homelessness Homelessness Prevention and Intervention in Social Work fills a critical gap in the social work curriculum as a main or a supplementary text. It also makes an accessible resource for clinicians and community practitioners seeking current knowledge on the topic, practical approaches to working with clients experiencing homelessness, and useful information for effective program and policy design.

critical time intervention case management model: *Achieving the promise* United States. President's New Freedom Commission on Mental Health, 2003

critical time intervention case management model: *New Models of Care for Patients with Severe Mental Illness - Bridging In- and Outpatients* Martin Heinze, Yasser Khazaal, Alexandre Wullschlegel, 2018-03-13 Over the past years, psychiatric services have been continuously faced with the challenge of providing comprehensive care to people suffering from severe mental illnesses. Legal and conceptual advances like the UN convention on the rights of persons with disabilities or the concept of recovery have rendered this challenge more actual and urgent than ever. However, psychiatric institutions often show only low levels of cooperation and integration between their different services. Hence, they need to develop new ways of bridging all sectors of care in order to help people most in need on their way to recovery and full inclusion in society. In this research topic, European researchers and clinicians present new ways of dealing with this essential issue by developing strategies and interventions on both institutional and non-institutional levels. The nine contributions of this ebook thus reflect actual clinical and conceptual considerations. They all aim at improving quality of care and providing adequate support to people suffering from severe mental illness.

critical time intervention case management model: *A Case-based Approach to Public Psychiatry* Jeanie Tse, Serena Yuan Volpp, 2018 Expert public psychiatrists use cases to share best-practice strategies in this clinically-oriented introduction to community mental health. This book provides clinicians with knowledge needed to combat serious mental illness in the context of trauma, poverty, and discrimination. Case studies bring to life foundational concepts and evidence-based treatment for diverse populations, affirming the potential of every individual to achieve recovery.

critical time intervention case management model: *A National Commitment to End Veterans' Homelessness* United States. Congress. House. Committee on Veterans' Affairs, 2009

critical time intervention case management model: *Experiential Learning and Internship for Undergraduates* Abigail O. Akande, Michael B. Lavetsky, Stacey Conway, 2024-10-08 This textbook is a comprehensive and sequential guide designed specifically for undergraduate students entering internships in the human services field and for the faculty serving as their internship supervisors. With a strong focus on career development and self-exploration, it builds understanding of the theoretical knowledge and core competencies needed for practical, clinical experience in a variety of human services positions such as rehabilitation, social work, case management, counseling, and criminal justice. Through a variety of exercises and activities in an

effective workbook format, this book assists student interns in developing a better sense of self in relation to their career readiness and helps them to identify career paths in the human services field. It goes on to support them in developing the soft skills necessary to navigate professional careers and gives guidance on how to secure undergraduate internships in the human services field. The book focuses on how to develop the tools needed to succeed, from counseling skills, case management, and crisis management to ethical conduct, multicultural considerations, self-care, legislation, and working under supervision. It is accompanied by downloadable versions of all the exercises and activities which will be available for instructors using this book as a course text. By targeting the career exploration content that is vital in the experience of undergraduates who are seeking professions in such a broad human services field, it will be essential reading for students at this level. It is also a valuable resource for internship or practicum instructors in undergraduate programs, with a focus on rehabilitation, human services, social work, psychology, criminal justice, and other related helping fields.

critical time intervention case management model: The Open Door Carol L. M. Caton, 2017-03-28 *The Open Door: Homelessness and Severe Mental Illness in the Era of Community Treatment* explains how and why homelessness among the mentally ill has persisted over the past 35 years, despite policy and program initiatives to end it. This ten-chapter book chronicles the unintended rise of homelessness in the wake of far-reaching post-World War II mental health care reforms, and highlights the key role of advocacy in spurring a governmental response to homelessness. The author provides a comprehensive, carefully documented state of the science on homelessness, reviews critical issues in managing severe mental illness in the community setting, and presents evidence of the effectiveness of service and housing interventions that have brought stability to the lives of many. Finally, the book reviews the role of homelessness prevention, a recovery orientation, and the promise of early treatment of psychotic disorders to facilitate greater social inclusion and community participation. In addition to providers of housing and services to the homeless mentally ill, this text will appeal to policymakers, mental health professionals, and students of public health and social sciences.

critical time intervention case management model: Housing First Deborah Padgett, Benjamin F. Henwood, Sam J. Tsemberis, 2016 This book provides a unique portrayal of Housing First as a 'paradigm shift' in homeless services. Since 1992, this approach has spread nationally and internationally, changing systems and reversing the usual continuum of care. The success of Housing First has few parallels in social and human services.

critical time intervention case management model: Spread, Scale, and Sustainability in Population Health Institute of Medicine, Board on Population Health and Public Health Practice, Roundtable on Population Health Improvement, 2016-01-23 *Spread, Scale, and Sustainability in Population Health* is the summary of a workshop convened by the Institute of Medicine's Roundtable on Population Health Improvement in December 2014 to discuss the spread, scale, and sustainability of practices, models, and interventions for improving health in a variety of inter-organizational and geographical contexts. This report explores how users measure whether their strategies of spread and scale have been effective and discusses how to increase the focus on spread and scale in population health.

critical time intervention case management model: The Routledge Handbook of Homelessness Joanne Bretherton, Nicholas Pleace, 2023-05-22 *The Routledge Handbook of Homelessness* brings together many of the world's leading scholars in the field to provide a cutting-edge overview of classic and current research and future trends in the subject. Comprising 41 chapters and divided into four sections, the handbook includes A comprehensive introduction to homelessness, referring to history, culture, causation and definitions. Contemporary and historical debates around homelessness in different academic disciplines. Homelessness relating to gender, sexuality, youth, families, migration, rurality, veterans and health. A range of country-specific studies to illustrate the ways in which homelessness is researched and understood around the world. Methods of engagement and modes of analysis. With contributors from around the world and editors

from the Centre of Housing Policy at the University of York, this handbook provides a groundbreaking and authoritative guide to theory, method and the primary interdisciplinary debates of today on homelessness. It will be essential reading for students, academics and professionals across the disciplines of sociology, human geography, public policy, housing policy, social policy, social work, economics and criminology.

critical time intervention case management model: Toward Understanding Homelessness , 2007

critical time intervention case management model: *How to House the Homeless* Ingrid Gould Ellen, Brendan O'Flaherty, 2010-06-24 How to House the Homeless, editors Ingrid Gould Ellen and Brendan O'Flaherty propose that the answers entail rethinking how housing markets operate and developing more efficient interventions in existing service programs. The book critically reassesses where we are now, analyzes the most promising policies and programs going forward, and offers a new agenda for future research. How to House the Homeless makes clear the inextricable link between homelessness and housing policy. Contributor Jill Khadduri reviews the current residential services system and housing subsidy programs. For the chronically homeless, she argues, a combination of assisted housing approaches can reach the greatest number of people and, specifically, an expanded Housing Choice Voucher system structured by location, income, and housing type can more efficiently reach people at-risk of becoming homeless and reduce time spent homeless. Robert Rosenheck examines the options available to homeless people with mental health problems and reviews the cost-effectiveness of five service models: system integration, supported housing, clinical case management, benefits outreach, and supported employment. He finds that only programs that subsidize housing make a noticeable dent in homelessness, and that no one program shows significant benefits in multiple domains of life. Contributor Sam Tsemberis assesses the development and cost-effectiveness of the Housing First program, which serves mentally ill homeless people in more than four hundred cities. He asserts that the program's high housing retention rate and general effectiveness make it a viable candidate for replication across the country. Steven Raphael makes the case for a strong link between homelessness and local housing market regulations—which affect housing affordability—and shows that the problem is more prevalent in markets with stricter zoning laws. Finally, Brendan O'Flaherty bridges the theoretical gap between the worlds of public health and housing research, evaluating the pros and cons of subsidized housing programs and the economics at work in the rental housing market and home ownership. Ultimately, he suggests, the most viable strategies will serve as safety nets—social insurance—to reach people who are homeless now and to prevent homelessness in the future. It is crucial that the links between effective policy and the whole cycle of homelessness—life conditions, service systems, and housing markets—be made clear now. With a keen eye on the big picture of housing policy, How to House the Homeless shows what works and what doesn't in reducing the numbers of homeless and reaching those most at risk.

critical time intervention case management model: *Homelessness, Health, and Human Needs* Institute of Medicine, Committee on Health Care for Homeless People, 1988-02-01 There have always been homeless people in the United States, but their plight has only recently stirred widespread public reaction and concern. Part of this new recognition stems from the problem's prevalence: the number of homeless individuals, while hard to pin down exactly, is rising. In light of this, Congress asked the Institute of Medicine to find out whether existing health care programs were ignoring the homeless or delivering care to them inefficiently. This book is the report prepared by a committee of experts who examined these problems through visits to city slums and impoverished rural areas, and through an analysis of papers written by leading scholars in the field.

critical time intervention case management model: *American Housing Survey for the New York-Nassau-Suffolk Metropolitan Area in 1991* , 1993

critical time intervention case management model: **Cognitive-Behavioral Social Skills Training for Schizophrenia** Eric L. Granholm, John R. McQuaid, Jason L. Holden, 2016-06-27 This unique manual presents cognitive-behavioral social skills training (CBSST), a step-by-step,

empirically supported intervention that helps clients with schizophrenia achieve recovery goals related to living, learning, working, and socializing. CBSST interweaves three evidence-based practices--cognitive-behavioral therapy, social skills training, and problem-solving training--and can be delivered in individual or group contexts. Highly user friendly, the manual includes provider scripts, teaching tools, and engaging exercises and activities. Reproducible consumer workbooks for each module include skills summaries and worksheets. The large-size format facilitates photocopying; purchasers also get access to a Web page where they can download and print the reproducible materials. Listed in SAMHSA's National Registry of Evidence-Based Programs and Practices

critical time intervention case management model: Social Work Case Management

Betsy Vourlekis, 2017-07-05 This new practice text provides a series of readings focusing on case management in a number of fields and in a variety of settings with different client populations. Each chapter examines a major component of case management practice by presenting information about an innovative program from a different location around the country. In conjunction, these readings provide a road map to social work case management. In addition to offering up-to-date practice approaches and examining the functions and skills of case management in depth, the authors provide the policy information needed for putting this traditional form of social work practice into today's service delivery context.

Critical Time Intervention Case Management Model Introduction

Critical Time Intervention Case Management Model Offers over 60,000 free eBooks, including many classics that are in the public domain.
