darkness lord byron analysis: Ecological Literary Criticism Karl Kroeber, 1994 Kroeber argues that literary criticism needs to reestablish connections to a wide range of social activities, especially the thinking of contemporary scientists. This new kind of criticism, ecological literary criticism, sets out to correct the abstractions of current theorizing about literature, and to make humanistic studies more socially responsible. Though applicable to any writer of any period, Kroeber points out that the proto-ecological tendencies of the English Romantic poets make them especially useful as a starting point for this approach. Since the Romantics believed that people were, and should be, at home in the natural world. Ecological Literary Criticism asks that we examine poetry from a perspective that assumes that the imaginative acts of cultural beings offer valuable insights into how and why cultural and natural phenomena have interrelated in the past and how they could more advantageously interrelate in the future. Kroeber argues that this approach to criticism will help us to develop mutually enriching links between humanistic and scientific modes of understanding humankind and the earth we inhabit.

darkness lord byron analysis: *Ode to a Nightingale* John Keats, 2017-11-15 Ode to a Nightingale is either the garden of the Spaniards Inn, Hampstead, London, or, according to Keats' friend Charles Armitage Brown, under a plum tree in the garden of Keats House, also in Hampstead. According to Brown, a nightingale had built its nest near his home in the spring of 1819. Inspired by the bird's song, Keats composed the poem in one day. It soon became one of his 1819 odes and was first published in Annals of the Fine Arts the following July. Ode to a Nightingale is a personal poem that describes Keats's journey into the state of Negative Capability. The tone of the poem rejects the

optimistic pursuit of pleasure found within Keats's earlier poems and explores the themes of nature, transience and mortality, the latter being particularly personal to Keats. The nightingale described within the poem experiences a type of death but does not actually die. Instead, the songbird is capable of living through its song, which is a fate that humans cannot expect. John Keats (1795–1821) was an English Romantic poet. The poetry of Keats is characterized by sensual imagery, most notably in the series of odes. Today his poems and letters are some of the most popular and most analyzed in English literature.

darkness lord byron analysis: *Kubla Khan* Samuel Coleridge, 2015-12-15 Though left uncompleted, “Kubla Khan” is one of the most famous examples of Romantic era poetry. In it, Samuel Coleridge provides a stunning and detailed example of the power of the poet’s imagination through his whimsical description of Xanadu, the capital city of Kublai Khan’s empire. Samuel Coleridge penned “Kubla Khan” after waking up from an opium-induced dream in which he experienced and imagined the realities of the great Mongol ruler’s capital city. Coleridge began writing what he remembered of his dream immediately upon waking from it, and intended to write two to three hundred lines. However, Coleridge was interrupted soon after and, his memory of the dream dimming, was ultimately unable to complete the poem. Some readers, who have never practised metrical composition in their own language, may perhaps doubt this, and suppose that such words as twilight and evening, are spondaic; but they only appear so when they are pronounced singly, the last syllable then hanging upon the tongue, and dwelling on the ear, like the last stroke of the clock. darkness lord byron analysis: *Romantic Climates* Anne Collett, Olivia Murphy, 2019-06-29 This book seeks to uncover how today's ideas about climate and catastrophe have been formed by the thinking of Romantic poets, novelists and scientists, and how these same ideas might once more be harnessed to assist us in the new climate challenges facing us in the present. The global climate disaster following Mt Tambora's eruption in 1815 - the 'Year without a Summer' - is a starting point from which to reconsider both how the Romantics responded to the changing climates of their day, and to think about how these climatic events shaped the development of Romanticism itself. As the contributions to this volume demonstrate, climate is an inescapable aspect of Romantic writing and thinking. Ideologies and experiences of climate inform everything from scientific writing to lyric poetry and novels. The 'Diodati circle' that assembled in Geneva in 1816 - Lord Byron, Percy and Mary Shelley, John Polidori and John Cam Hobhouse and the gothic novelist MG 'Monk' Lewis - is synonymous with the literature of that dreary, uncanny season. Essays in this collection also consider the work of Jane Austen, John Keats and William Wordsworth, along with less well-known figures such as the scientist Luke Howard, and later responses to Romantic climates by John Ruskin and Virginia Woolf.

darkness lord byron analysis: *Beloved Dog* Maira Kalman, 2017-10-31 Maira Kalman, with wit and great sensitivity, reveals why dogs bring out the best in us Maira Kalman + Dogs = Bliss Dogs have lessons for us all. In *Beloved Dog*, renowned artist and author Maira Kalman illuminates our

cherished companions as only she can. From the dogs lovingly illustrated in her acclaimed children's books to the real-life pets who inspire her still, Kalman's Beloved Dog is joyful, beautifully illustrated, and, as always, deeply philosophical. Here is Max Stravinsky, the dog poet of Oh-La-La (Max in Love)-fame, and her own Irish Wheaten Pete (almost named Einstein, until he revealed himself to be "clearly no Einstein"), who also made an appearance in the delightful What Pete Ate: From A to Z. And of course, there is Boganch, Kalman's in-laws' "big black slobbering Hungarian Beast." And that's just the beginning. With humor and intelligence, Kalman gives voice to the dogs she adores, noting that they are constant reminders that life reveals the best of itself when we live fully in the moment and extend unconditional love. "And it is very true," she writes, "that the most tender, complicated, most generous part of our being blossoms without any effort, when it comes to the love of a dog."

In Alfred Noyes's thrilling poem, charged with drama and tension, we ride with the highwayman and recoil from the terrible fate that befalls him and his sweetheart Bess, the landlord's daughter. The vivid imagery of the writing is matched by Charles Keeping's haunting illustrations which won him the Kate Greenaway Medal. This new edition features rescanned artwork to capture the breath-taking detail of Keeping's illustrations and a striking new cover.

darkness lord byron analysis: Lord Byron at Harrow School Paul Elledge, 2000-06-26 Elledge carefully examines the historical and biographical contexts to Byron's Harrow performances, showing their relevance to Byron's physical and psychic landscapes at the time - his connections to his mother and half-sister, his headmasters and tutors, his Harrow intimates and rivals, his lameness, his London theatrical spectatorship. Byron's performances in the characters of King Latinus from the Aeneid, Zanga the Moor from Edward Young's *The Revenge*, and King Lear provide an opportunity to examine his early experiments with self-presentation: as Elledge argues, these performances are auditions or trials of performative and autotherapeutic strategies, subsequently refined and polished in the mature verse. Throughout, Elledge reads the boy for the sake of reading the poet; he shows how young Byron's introduction to theatricality at Harrow School prepared him to make a confident and spectacular debut on Europe's cultural stage.--BOOK JACKET.

darkness lord byron analysis: *Dark Imaginings* Geoff Payne, 2008 What does it mean to say that poetry is dark? How does the presence of darkness give meaning to literary works? Such questions sit at the centre of this study of Lord Byron, a man who has been characterised as intrinsically dark by generations of scholars. This is the first book to offer a comprehensive survey of Byron's darkness, producing new and innovative readings of his poetry by exploring how darkness (both literal and figurative) helps to structure his work's ideological topography and facilitates the exchange of ideas between its different ideological systems. Canvassing a variety of issues relevant to a number of different manifestations of darkness, the study explores such diverse topics as the relationship between sublime aesthetics and the gendering of desire, the connection between darkness and Byron's Scottish nationalism and the influence of blackness on his engagement with the Orient. With such a broad focus in mind, it also engages with texts that represent Byron's oeuvre in its broadest sense, engaging not only with canonical texts such as *Manfred* and *Don Juan*, but also selections from Byron's juvenilia, the *Oriental Tales* and his letters and journals, as well as surveying

the critical reviews that helped to influence the colour of his work and its later reception.
